A SERVICE ROAD to a shopping center on the Pacific Coast Highway near Malibu is undermined by the raging Malibu Creek which normally is a shallow waterway. The week long rains have caused millions of dollars in property damage and numerous deaths. (AP Wirephoto)

Damage At \$36 Million

Californians Return To Homes; 86 Dead

LOS ANGELES (AP) — With the worst of a nine-day storm apparently over, about 9,000 Californians began returning today to whatever was left of their mud-caked homes.

Most of them had been evacuated from foothill areas where homes were destroyed, damaged or threatened by flooding or mudslides from the several mountain ranges paralleling the California coastline.

Eighty-six persons died in the state's worst flooding in 31 years. Some were swept away in torrential rivers. Many were killed in traffic accidents. Eleven were buried in the cascading slime. Four children died in their burning homes when their parents couldn't reach firemen because telephone lines were knocked out.

34 Inches Of Rain

The storm, which dumped 34 inches of rain in some portions of the state, left \$35 million damage, by Gov. Ronald Reagan's estimate, and some major health problems.

President Nixon and Reagan declared the state a disaster area, making federal and state funds available to help pay for the mammoth task of cleaning up and to provide low interest loans to businessmen and homeowners for rebuilding their property.

Weather

ESCANABA AND VICINITY—Variable cloudiness and continued cold with chance of a few snow flurries today, high near 15. Cloudy and not so cold with a chance of light snow to night, low 12. Tuesday cloudy, windy and a little warmer with snow likely, high 26. The highest temperature yesterday was 19 and the overnight low was 10. Easterly winds 8 to 12 mph today becoming east to southeast 12 to 18 mph tonight and increasing to 14 to 24 mph on Tuesday. Precipitation probabilities: today, 20%; tonight, 60%; and Tuesday 70%. Twenty-three inches of snow on the ground.

Upper Peninsula—Fair in the east section and partly cloudy in the west half this afternoon. High 15 to 20. Cloudy and warmer tonight with snow in the west portion this evening and through the remainder of the peninsula tonight. Low 10 to 18. Tuesday—Snow likely and warmer. High 22 to 28.

Sun sets today at 4:47 p. m., and rises Tuesday at 7:18 a. m.

Peace Talks Off To Good Start, Nixon Tells Press

Canada, Italy Stand On China Brings Warning

TAIPEI (AP) — Nationalist China has promised "further steps," without elaborating, against Italy and Canada if the two countries recognize Red China.

The Foreign Office is waiting for replies from Rome and Ottawa to its protest against such moves.

On Friday Foreign Minister Pietro Nenni said Italy would establish diplomatic relations with Peking and last Wednesday Canadian Foreign Minister Mitchell Sharp said Ottawa would soon approach Communist China to discuss similar recognition.

Diplomatic circles here said the Italian and Canadian moves toward Peking might not necessarily mean a break of relations with Nationalist China because both countries seem to want to maintain a two-China policy.

But it is clear a two-China policy would never be accepted by either Nationalist or Communist China.

A spokesman of the Foreign Office said: "We are ready to take further steps against recognition of Peking if Rome and Ottawa fail to give us satisfactory replies."

He declined to say what was planned, but it is generally believed Formosa's first move would be to recall its ambassadors from Rome and Ottawa.

Driver's Body Found In River

By The Associated Press

Twelve persons were killed in traffic accidents in Michigan during the weekend, including a rural Cheboygan man, whose car hit a tree and a steel bridge and flipped into the Black River in Presque Isle County.

State Police said the body of Clayton Woodrow Bell, 53, of Route Four, Cheboygan, was found in the river Sunday. The accident happened late Saturday night, on a county road south of M 68 in Allis Township.

The Associated Press weekend Friday fatality count began at 6 p.m. Friday and ended at midnight Sunday.

The other victims: John A. Zabowski, 56, of Anchorage, in a head-on auto crash Sunday on M 29 in St. Clair County's Ira Township. Gilbert J. Straub Jr., 22, of South Lyon, whose car hit a tree Sunday along the Pontiac Trail in Oakland County's Lyon Township.

Roderick Byrd, 53, and William White, 58, both of Pontiac, in a car-train collision in Pontiac Saturday.

Kimberly Smith, 9, of Detroit, struck by a car Saturday in Detroit.

Activity By Viet Cong Tied To Peace Talks

PARIS (AP) — American and South Vietnamese negotiators studied reports today on the upsurge of Viet Cong attacks, considering their effect on the Vietnam peace talks.

The attacks, apparently timed to coincide with the opening of the four party conference, intensified over the weekend along the Cambodian border and in

the Mekong Delta south of Saigon.

South Vietnamese sources said the Saigon government probably would instruct its delegate, Pham Dang Lam, to warn the next meeting of the conference Thursday that any new wave of violence could obstruct the way to peace.

American officials said the attacks "are not likely to improve the atmosphere" at the conference. But they added that the U.S. Government has always expected the fighting to continue, at least through the initial stages of the new series of talks.

North Vietnam and the Viet Cong's National Liberation Front have never concealed their intention to "fight and talk," to continue the war unabated until the United States has agreed to withdraw its forces from South Vietnam.

Their delegates made this

clear again in their statements to the opening plenary session Saturday.

"As long as the United States continues its aggression, the 31 million Vietnamese, united as one man, will go on fighting until total victory," said Hanoi's delegate Xuan Thuy.

Tran Bui Kiem, "foreign minister" of the NLF central committee, used almost the same words to warn that the fighting would not subside just because the conference has started.

Although the United States stopped bombing North Vietnam last November to get the Paris talks going, it intensified its bombing of North Vietnamese troops and supplies moving south through Laos. And U.S. and South Vietnamese forces in South Vietnam have intensified their operations seeking to root out the North Vietnamese and Viet Cong and destroy them.

U.S. Tells Its Terms; It's Up To Hanoi Now

WASHINGTON (AP) — President Nixon said today the Paris peace talks on Vietnam "are off to a good start" under his new administration.

He said that is the U.S. view, but added: "Now, of course, what is involved is what happens on the other side."

Nixon told his first White House news conference the United States has offered an agenda of possible agreements on specific points.

"Where we go from here depends on what the other side offers in turn," Nixon said.

The White House East Room was the setting for Nixon's first question-and-answer session as President.

The initial question: His plans for a legislative program?

"I shall have a major legislative program to present to the Congress this year," Nixon said. Asked to list problems requiring his most urgent attention, Nixon said that during his first week they have concerned foreign policy.

He said the National Security Council has had two meetings and he has spent hours at night reading foreign policy papers.

But he said beyond that, the problems of the cities and economic problems require urgent attention and both have been discussed with the appropriate officials.

Nixon said he has noted expressions of interest on the possibility of admitting Communist China to the United Nations.

He said his administration will continue to oppose admission.

In the jammed news conference, broadcast live from the White House, Nixon said he favors the nuclear nonproliferation treaty and said the only question is the timing of the ratification of the pact.

He said that question would be discussed in a National Security Council meeting this week and with congressional leaders.

Then, Nixon said, he will make a decision on when the treaty should be approved.

Nixon added he also favors talks with the Soviet Union on reduction of strategic arms, but said the question again was another matter of timing.

Arms reduction itself would not achieve peace, he said, adding talks are needed when they will permit solution of "outstanding" political problems at the same time. He cited the Middle East as an example.

Nixon said there have been suggestions for four-power talks on the Mideast, that the United Nations should be the principal peace-seeking forum, that the United States and the Soviet Union should hold bilateral talks or that the parties concerned should solve it.

He said the whole question will be discussed all day Saturday, but in any case there is a need for new initiatives by the United States.

The Mideast situation could lead to "a confrontation between the nuclear powers," he said, so a solution must urgently be sought. He said he is open to any suggestions.

Nixon disclosed that he does not intend to ask industry and labor to submit to new wage-price guidelines against inflation, although he said the price rise must be controlled.

Unions and businesses, he said, must be guided in their economic decisions by interests of the organizations they represent.

But while rejecting the formal guidelines idea, introduced by the Kennedy administration, to hold wage and price boosts to non-inflationary levels, Nixon emphasized that his administration is searching for inflation curbs that will not create serious unemployment.

At this time, Nixon went on, he cannot say where and when the reductions will be found, but "we are taking a new look" at the entire budget programs.

Surtax Question

Nixon did not comment in response to the budget question on whether he plans to seek extension of the 10 per cent surtax beyond its June 30 expiration date. The President made cam-

Hang 15 Iraqis As Israeli Spies

DAMASCUS, Syria (AP) — Fifteen Iraqis convicted of spying for Israel were hanged in the main squares of Baghdad and Basra at dawn today, Baghdad Radio announced. Nine were Jews.

Baghdad Radio said 200,000 people, shouting "Death to all traitors" took to the streets in Baghdad as soon as the executions were announced and converged on Liberation Square. Eleven of the bodies were hanging there, each wrapped with a poster bearing the text of his death sentence.

Four others were hanged in Basra, the southern port city.

They were convicted nearly two weeks ago by a four-man court. Their death sentences were approved Sunday night by President Ahmed Hassan El Bakr.

The broadcast said they sent reports about Iraqi armament to Israel with a wireless transmitter concealed in a Christian church in Basra, by ships docking at Basra and through the U.S. consulate in Ibadan, Iran.

The broadcast said the spy ring received instructions from Israel by way of secret agents in Holland. It said the ring was uncovered two months ago when foreign ships docked in Basra intercepted a signal sent by the church transmitter.

Wallenda Family Given Scare

MADISON, Wis. (AP) — All four active members of the Wallenda Family, a high wire circus act, were doing the group's pyramid sequence when a supporting brace broke and the main wire shook.

The group retreated to safety and stopped the act. The close call came Saturday night during a Shrine Circus performance.

Two members of the company were killed and one paralyzed from the waist down in a fall seven years ago in Detroit.

Today's Chuckle

Women not only drive as well as men, but they can do it on either side of the road.

Expand Social Programs: LBJ

CHICAGO (AP) — Lyndon B. Johnson says he hopes the Nixon administration will expand his domestic programs to make the "quality of life" for all Americans "match the quantity of our wealth."

In his first published comments since relinquishing the presidency to Richard M. Nixon one week ago, Johnson says he had no "acceptable option" to escalating the Vietnam war—a war he called "the most frustrating of all crises."

The former president clearly identifies himself with social legislation and reveals his regret that international developments prevented him from concentrating solely on domestic improvements.

In the article which is both a hope for the future and a defense of his five years in the White House—Johnson writes

that "the agony and the cruelty of the American presidency is that . . . the world will not permit the occupant of the office—the American people themselves—to attend the needs of this society without diversion."

Johnson wrote the 30,000-word commentary on his White House years for the Encyclopedia Britannica Book of the Year to be published March 1.

Entitled, "Agenda for the Future: Presidential Perspective," it was released today.

On Vietnam, Johnson says he dreaded the prospect of being "a wartime president . . . but history determined that I should face the awful choice of intervention or retreat in Southeast Asia."

"I could not escape or delay it. Vietnam has been the most frustrating of all the crises I have faced."

Arrest Cleveland Priests

Rome Postpones Consistory

VATICAN CITY (AP) — Reports of a postponed consistory, the arrest of two American priests and a proposal for a schism in Holland over the weekend underlined the continuing ferment in the Roman Catholic Church.

The Vatican's official spokesman called it "stupid," but re-

ports persisted Sunday that Pope Paul VI postponed a winter consistory after two or three bishops turned down a cardinal's red hat because they differed with his policies dividing the Church.

The reports, carried in some French and Italian newspapers, said the issue most likely to cause any churchman to reject elevation to the cardinalate would be birth control. A wave of dissent has rocked the Church since Pope Paul published his encyclical last July reaffirming the church's ban on mechanical and chemical contraceptive devices.

Request Changes

"There is no truth to this," said the Rt. Rev. Msgr. Fausto Vallance, the Vatican's official spokesman.

But a Vatican source said a consistory to fill vacancies in the College of Cardinals, which now is down to 102 members, definitely was in the making in December and had been expected to be called this month. It now is expected between Easter and June, the source said.

One account said Pope Paul changed his mind after 40 well-known theologians published a request for changes in the conservative Vatican Curia, the central administration of the church.

In Cleveland, Ohio, two priests were arrested Sunday and suspended from clerical duties after they led a procession along an aisle of St. John's Roman Catholic Cathedral and tried to conduct an unauthorized Mass. The priests, who were charged with trespassing, were the Rev. Robert T. Beggs, 30, the nephew of Bishop Floyd Beggs of Oakland, Calif., and the Rev. Bernard L. Meyer, 31. Father Meyer was carried out of the church by police.

Suspend Priests

The two priests, both assistants at Cleveland area parishes, were suspended by Bishop Clarence G. Isenmann of Cleveland.

A new group called Christians Who Care said the unauthorized Mass was a protest against the Church because it "coexists self-righteously and apathetical-

ly with immoral and inhuman wars, intolerable and divisive racism and extreme and dire poverty."

In Amsterdam, four Jesuit priests assigned to work among students asked their 1,200 parishioners Sunday if they are prepared to break with the Vatican over the requirement for celibacy among priests. The four set a March deadline for the Dutch students to decide whether to set up a dissident organization if the celibacy rule is not relaxed.

HHH Teaches

ST. PAUL, Minn. (AP) — Former Vice President Hubert H. Humphrey will begin his new academic career by giving a speech on the urban crisis.

The speech will be the keynote address for the annual political emphasis week beginning Feb. 23 at Macalester College where Humphrey will be a professor. He also will teach this year at the University of Minnesota.

BILL BARRETT, member of the committee for an Academic Environment, opposing the student strike at San Francisco State College, stands on the shoulders of Lee Attabitt to restore the American flag to the flagpole after it had been cut down by demonstrators. (AP Wirephoto)

Behind The Statistics:

Police Report Shows More Crime In City

By CLINT DUNATHAN

The number of crimes in Escanaba increased substantially within the past year, with rising statistics on burglaries, larcenies, assaults and drunk driving.

And the number of juveniles involved in offenses jumped from a reported 157 to 332, the Escanaba Police Department annual report shows.

But there's a story behind the statistics that should be told before citizens are misled into thinking that Escanaba is undergoing a "crime wave," says Police Chief Richard Frederick.

"I think the most significant factor was the employment of a detective and a resulting deeper investigation of offenses," said Chief Frederick.

Not Just City

"Detective John Robitaille works in plain clothes and devotes his full time to investigation. He is doing a tremendous job and the results show in the reports," he added.

For example, a more complete investigation of an incident of larceny or vandalism by juveniles will reveal that not just the two who were apprehended were involved, but perhaps five

or six more also.

It is also apparent, Chief Frederick pointed out, that city police statistics are not limited to Escanaba citizens.

"The figures include adults and juveniles from the whole area and in fact sometimes from distant places, so it could not be said with certainty and without further study that Escanaba juveniles are responsible for an increasing number of offenses," he said.

No Homicides

The report for 1968 does, however, does show that 332 juveniles (not including neglect or traffic cases) were in trouble with the police. This compared to 157 in 1967. Reports of vandalism alone jumped from 6 to 80.

Most of the juvenile offenses were for burglary, larceny and auto theft; the police department handled 172 of the cases with warnings; 139 were referred to juvenile court; and 20 were referred to criminal or adult court.

There were no reported criminal homicide or rape cases in Escanaba in 1968 (nor in 1967) but the number of other major crimes increased substantially.

Burglaries went from 39 to

109, larceny under the value of \$50 from 109 to 161, larceny over the value of \$50 from 16 to 44, auto theft from 33 to 45, and sex offenses from 3 to 10.

Despite a growing awareness of drug addiction nationally, the number of narcotic drug law offenses stayed at one, the same as the year before.

Traffic Toll Cut

Drunkenness cases increased from 28 to 42, malicious mischief rose from 136 to 364, and the grand total of all offenses for 1968 was 2,406 compared to 1,677 for the year before.

Again "in depth" investigations through the services of police detective were held responsible (in part at least) for some of the statistical rise in offenses, said the police chief.

On the side of traffic law enforcement there were evident gains with a reduction in the number of traffic casualties. In 1967 Escanaba had five person killed in traffic; in 1968 there were none. The number of injured increased, however, from 199 to 206.

As might be expected, most accidents occurred among drivers in the 29 to 35 year-old group, since persons in that age bracket are most frequently behind the wheel. Two-thirds of the drivers in accidents were men. Failing to yield the right of way was the most common traffic offense.

Police issued 1,290 traffic court notices, a few less than the year previous — but the number of motorists charged with drunk driving went from 3 to 18. "This was largely due to the use of the breathalyzer test for intoxication which began last summer," said Chief Frederick.

The grand total for motor law violations (including parking) in 1968 was 20,588 — down from the 22,490 of the year before.

Mortgage Rates Raised To 7 1/2%

WASHINGTON (AP) — The maximum interest rate on the mortgages insured by the Federal Housing and the Veterans administrations has been raised to 7 1/2 per cent in what is described as an "interim, emergency measure."

George Romney, secretary of housing and urban development, said the action Friday was long overdue, because mortgage

Milton Peterson Promoted By GMC

Milton W. Peterson, son of Mrs. Delia Peterson, 321 Ogden Ave., has been promoted to general supervisor-production and material control of G.M.C. His responsibilities will include the material control function in the area of special equipment, special installations and tires.

Peterson is a graduate of Ferris State College and came to GMC in 1962 where he has held various positions in the production and material control department. His most recent assignment has been supervisor of the special equipment group. He is married to the former Donna Schalllock. They and their two sons reside in Rochester, Mich.

How Carolina Lady Relieved Painful, Itching Piles

Treatment Shrinks Piles, Relieves Pain In Most Cases

Mrs. C. McKinney of Rutherfordton, N.C. says: "Preparation H relieved my pain and stopped my itching. I can now work and be comfortable. I've told lots of friends who've had the same results."

(Note: Doctors have proved in most cases—Preparation H actually shrinks inflamed hemorrhoids. In case after case, the sufferer first notices prompt relief from pain, burning and itching. Then swelling is gently reduced. There's no other formula for the treatment of hemorrhoids like doctor-tested Preparation H. It also lubricates to make bowel movements more comfortable, soothes irritated tissues and helps prevent further infection. In ointment or suppository form.)

Pueblo Sister Ships Equipped

WASHINGTON (AP) — The Navy says that improved destruction equipment was installed in the sister ships of the USS Pueblo after the intelligence vessel was captured by North Korea just over a year ago.

The acknowledgement came after Pueblo Cmdr. Lloyd M. Bucher told a Navy court of inquiry in California last week that he had been denied such equipment on two occasions "because of money and time."

The court of inquiry, which has been taking testimony in the Pueblo case, has generated heated controversy over Bucher's statements that superiors twice rejected his requests for a system for swift destruction of secret intelligence equipment and documents.

Asked why the Pueblo was not provided with this equipment, the Navy said the subject is being covered by the court of inquiry.

However, the Navy did say that "improved destruct equipment has been installed in all ships of the Pueblo class," and that this was accomplished after the Pueblo was seized Jan. 23, 1968.

Unvented Heater Causes Illness

GRAND HAVEN (AP) — Mrs. George Downs, 53, of Grand Haven, reported to the hospital Saturday night, complaining of a headache. She was treated and released.

Early Sunday, she found her husband unconscious, and he was taken to the hospital to undergo treatment. His condition was not serious.

And later Sunday, authorities received an emergency call from Mrs. Downs' home. She and a couple, Mr. and Mrs. William Meridith of Spring Lake, were semi-conscious and taken to the hospital for treatment of injuries.

Investigating authorities then discovered that an unvented gas heater in the garage apparently caused their troubles.

Repeats Bottle Cap Robbery

TULSA, Okla. (AP) — A man who robbed a Tulsa grocery store of money and pop bottle caps on Sept. 23 did the same thing again Friday, police said.

"Do you remember me," the bandit asked clerk Clarence Wilson.

"Yes," replied Wilson.

"Do the same thing you did before," the robber replied.

Wilson said he filled a sack with pop bottle caps and about \$150 in cash. The robber then escaped on foot.

The pop bottle caps are used in a soft drink company prize contest.

Griffin Praises Rebellious Spirit In Nation's Youth

YPSILANTI (AP) — U.S. Sen. Robert Griffin, R-Mich., praised the "spirit of rebellion" in the younger generation Sunday, but he strongly criticized youths who have caused disruptions on the nation's campuses.

"If the day ever comes when the younger generation has no spirit of rebellion, that will be the day to start worrying in earnest about the future of America," Griffin said in delivering the commencement address at Eastern Michigan University.

"Many in my generation find it difficult to recognize that a spirit of rebellion among young people is vital—and is just as important today as it was in 1900 or in 1776," he said.

"In a sense, each new generation of Americans has turned on its elders and has rebelled against the Establishment. In the process, our republic has grown and remained dynamic," he said.

Griffin said, however, he was strongly opposed to young people who seize and burn college buildings or who defile the offices of university presidents.

Selfishness

"Their violence is not rebellion of the mind. It is more like the selfish lashing out of the defeated who are bent on destroying all around them," he said.

About 825 seniors and graduate students received degrees at the commencement exercises. Griffin, a Traverse City Republican, was awarded an honorary doctor of laws degree.

In his speech, Griffin said the

Ice Jam Backs Up River Raisin

MONROE (AP) — About 50 persons were forced to evacuate their homes Sunday when an ice jam on the River Raisin back up water into Monroe residential areas.

Two hundred homes were surrounded by water measuring up to five feet in depth.

One woman suffered a heart attack and was taken to the hospital by Monroe firemen. Her name and condition were not immediately reported.

Dynamite was exploded Sunday in an effort to relieve the pressure of the ice. However, Horace Norville of Toledo, an Army Corps of Engineers, official told city officials he doubted the dynamiting was likely to improve the situation.

Several basements on Front Street were flooded and water backed up in sewers and poured in through windows and walls.

Water also seeped into the basement of the Monroe Convalescent Center which has 75 patients, but no one was evacuated. The building's lower windows were sandbagged and water was pumped out of the basement.

An estimated 100 police, civil defense and public works officials were at the scene, as well as 40 Red Cross volunteers.

The River Raisin flows into Lake Erie.

Wales was known as Cambria to the ancient Romans.

Nuclear Blast Unlikely, But Other Perils Exist

Crash Precautions Posted By Sawyer

By TOM PELLOW
Of Panax Newspapers

SAWYER AFB — Safety and security were stressed at a disaster preparedness briefing session held here for civil defense officials, representatives of law enforcement agencies and news media.

Two films were used in a presentation that outlined precautions that should be taken by civil authorities for control and containment in the event of the crash of a military aircraft within the area.

George Copher, base civil defense official, discussed dangerous conditions that may exist resulting from fire or radiation. It was pointed out the danger of a nuclear explosion or radiation from a nuclear weapon exposed to fire is negligible, but that nuclear weapons do contain high explosives that may detonate when exposed to fire. Such an explosion will not cause a nuclear blast.

Clear Area

He noted that an area of at least 2,000 feet around the aircraft should be cleared of all but personnel directly involved in rescue operations. If dwellings are located within the area, an orderly, calm evacuation should be carried out.

Fire Chief Jack Myhrall told the group that properly equipped firemen can cope with any fire involving nuclear weapons that are now part of the military strength of the United States.

Myhrall explained that rescue and fire fighting operations for cargo, bomber and tanker aircraft should be conducted from upwind. Rescue and fire fighting operations for fighter aircraft should be conducted from the side. "This precaution is necessary as ammunition, rockets or missiles may fire due to heat or other causes. The jet blast of an externally mounted rocket or missile is hazardous," he said.

Don't Handle Explosives

"Under no circumstances should high explosive material from ruptured weapons or components that have been scattered be handled, stepped on, or disturbed in any manner. This material is extremely sen-

sitive to detonation from shock or impact. The Air Force team on the scene will include ordnance disposal technicians to handle this material."

He stressed that the first consideration of the Sawyer department in event of an accident was the safety of the aircraft personnel and safety of people involved in the rescue operation. "Our department is at your service in providing courses of instruction for personnel in various communities that can be arranged to suit your convenience. As part of the instruction, we will teach you how to remove personnel from planes in cases where they are on fire and also where there is no fire involved," he stated.

Capt. Joshua Galindo pointed out that from the law enforcement point of view the main problem is keeping curious people away from the scene of an accident for their own safety and also from the point of view of protecting classified materials.

Secret Material

Lt. Greg aVn Pelt, chief of the information division at Sawyer, in his discussion of relations with news media stressed that safety and protection of security materials are the principal concerns in event of an accident.

"Our basic policy is to give as much cooperation as possible to new media in connection with national security policies," he said.

"The senior officer at the scene is the one who determines if classified defense material is exposed. If this is the case we would request law enforcement agencies to prevent

photography of such materials for this is a federal offense. After this has been determined, permission will be given representatives of news media to enter the area."

The briefing session opened with remarks by Col. John R. Hinton, wing commander, and Col. Lee McClendon, base commander. Mason Johnson, Civil Defense director, attended the briefing.

Shamie May Seek Cavanagh's Job

DETROIT (AP)—Detroit businessman Walter C. Shamie, who lost once to Mayor Jerome P. Cavanagh in a bid for the city's top post, may seek the job again. However, Shamie said Saturday he won't be a candidate for mayor unless his backers can come up with \$100,000 by Feb. 22. He said he needs that much to make up for what he termed "the hundreds of thousands of dollars Cavanagh can get."

Gunshot Victim Found In Woods

MANISTIQUE — The body of a Highland Park, Mich., man was found in woods near Germfask Saturday morning by Troopers of the Manistique State Police post.

Sgt. Paul Uerling, post commander, said today that Robert Allen Jolderzma, 33, died sometime Friday or early Saturday morning of a self-inflicted gunshot wound in the head.

The victim was discovered lying on the ground, fully clothed with a .308 rifle in his hands. The body was found about 200 feet south of the Jolderzma cabin.

A missing persons bulletin from Detroit police was received by the Manistique Post, asking a check be made at the Jolderzma cabin. This led to the discovery of the body.

Officers said the victim's car was found parked on highway M-77.

Jolderzma, who was employed as a fireman with the Southfield Fire Dept., was last seen in Highland Park on Thursday.

The body was taken to the Messier - Brouillere Funeral Home and shipped to Detroit this morning.

Survivors include a wife and four children in Highland Park.

Naubinway Man Drowns In Lake

NAUBINWAY—Divers Sunday recovered the body of Melvin Frazier, about 50, of Naubinway, who drowned when the snowmobile he was driving went through the ice on Lake Michigan about two miles off shore.

A companion, John King, also of Naubinway, told State Police of the Newberry Post that he and Frazier chased a coyote out on the ice, driving separate snowmobiles. King turned back.

Frazier continued the chase and his vehicle suddenly disappeared. Divers recovered his body from 60 feet of water.

Seven Injured Slightly When Autos Collide

Seven persons were injured, none seriously, in a traffic accident at 3rd Ave. S. and 9th St. on Sunday, it is reported by city police.

The driver, Elizabeth L. Knauf, 16, of Bark River, and four teenage passengers, Jean Kleiman, Anna Moniowczak and Mark Kleiman of Bark River, and Vicki Mayville, 919 7th Ave. S., were injured.

The other car was driven by Elizabeth Thompson, 20, of Cornell Rte. 1, and she and her passenger, Catherine Houle, 24, of 314 S. 8th St., were also bruised.

Dr. W. F. Knudsen

Dentist Office Is Opened Here By Dr. Knudsen

Dr. W. F. Knudsen today announced the opening of an office at 1103 Ludington. He became interested in the area several years ago through camping and fishing trips to the Upper Peninsula.

Both he and his wife, Sandra, were originally from Lansing. They have one son, Eric, five months.

He graduated from the University of Michigan with a B. S. degree in 1964 and received his D. D. S. degree also from the University of Michigan in 1968.

He has been employed, since coming to the area in May, by the Delta-Menominee County Health Department.

Friends Of NMU Blacks Ask Job Center Kept

The Friends of the Black Student Association at Northern Michigan University, Marquette, a group of white faculty, students, and members of the community, has charged the Faculty Senate with "underlying racist attitudes" in the

A. Anderson, 88 Taken By Death

August Anderson, 88, of Gladstone died at 9:30 a.m. Saturday at the Vietzke Nursing Home where he had resided for four weeks.

He was born Aug. 12, 1880 in Finland and had worked at the Buckeye Veneer Mill. He had resided in Gladstone for the past 60 years.

Survivors include one son, Irving Anderson of Gladstone; one sister, Mrs. Victor Johnson of Gladstone, seven grandchildren and two great grandchildren.

Friends may call at the Anderson-Johns Funeral Home from 4 to 9 p.m. Monday and the body will be taken to the Grace Baptist Church in Gladstone at 1 p.m. Tuesday. Funeral services will be conducted there at 2 p.m. with the Rev. Gaylord Wright officiating. Burial will be in Fernwood Cemetery.

recommendation the Senate has made calling for the closing of the only Job Corps center in the nation located on a college campus.

The Job Corps controversy gained attention Dec. 13 said FBBSA, when a sit-in by 150 members of the campus Black Student Association forced cancellation of the Northern-Pan American basketball game, but the two situations were not related.

The letter of protest, read by members of FBBSA before the Faculty Senate, and also sent to the university's president, Dr. John X. Jamrich, stated that

Last Week For Dinner Tickets

Don Brandt, president of the Escanaba Area Chamber of Commerce, announced today that reservations for the Chamber's annual dinner Thursday, Feb. 6, are coming in well. Only one week remains and a limited number of reservations are available.

Kenneth Haagensen, executive vice president of the Wisconsin State Chamber of Commerce, who will address the gathering, is nationally known as an outstanding humorous and informative speaker.

The dinner committee, Irving Olsen, chairman, Robert Barron and Gary Barton, has prepared an interesting program, with Jean Worth as Toastmaster. The committee asks Chamber members to call the Chamber office 786-2192 today for reservations.

Hosting the cocktail party at 6:30 preceding the 7:30 dinner are Clairmont Transfer Co., Escanaba Paper Co., Michigan Consolidated Gas Co., and Upper Peninsula Power Co. Deadline for reservations is Monday, Feb. 3.

March Of Dimes Nursing Awards Are Available

Scholarship awards now can be made to students who enter training to become registered nurses, with or without a baccalaureate degree, Albert Paparic of Escanaba, chairman of the Delta County chapter of The National March of Dimes Foundation said.

He said that due to shortages of trained personnel in health fields the revision was authorized in the March of Dimes health career awards program in the field of nursing. In the past, students were required to complete baccalaureate degrees in nursing in order to qualify.

Students interested in applying for a March of Dimes scholarship may write to Paparic at 1221 Ludington St. for details.

Meshigaud Held For Auto Theft

William Meshigaud, 33, of Hannville, arrested by State Police of the Gladstone post for unlawfully driving away an automobile in Escanaba, is to be arraigned today in Delta District Court.

He was taken into custody by State Police at 1:30 p.m. Sunday at Hannville and was turned over to Escanaba police.

City police said Meshigaud is charged with driving away an auto owned by Tom McDonough, 1408 1st Ave. N.

any lack of success in integrating the Job Corps center with the university "is a direct reflection on the university's lack of constructive action."

Although the Faculty Senate recommendation had called the presence of the Job Corps "not essential to the university level programs," FBBSA countered that the Job Corps does present great opportunities for academic and cultural enhancement which have been ignored by the university. The Job Corps center, which is 70 per cent black, is considered one of the most successful centers in the nation, the FBBSA states.

The failure of the university to eliminate the abrasiveness between itself and the Job Corps center was labeled by FBBSA a result "of the university students' ignorance and prejudice . . . the responsibility for educating its students belongs to the university." As a result of being located in a geographically, culturally, and economically isolated community, the university has few opportunities to deal with cultural and racial differences, and FBBSA stated that "opportunities afforded by the presence of the Job Corps cannot be overlooked."

The communication from the FBBSA was submitted by William Worth of Crystal Falls, a white student at Northern Michigan University.

Rev. F. Ignatz Dies On Sunday

The Rev. Frank Joseph Ignatz, 74, who had resided at the Bishop Noa Home, died at 10:20 a.m. Sunday at St. Francis Hospital where he had been a patient for one day.

He was born Jan. 12, 1894 in North Chicago and was a retired priest of the Roman Catholic Church.

He is survived by three brothers, Albert of North Chicago, Antone of Green Bay and Stanley of Waukegan, Ill.

The body has been taken to the Anderson Funeral Home and will be removed to the Salata Funeral Home in North Chicago where the Exortation will be held at 10 a.m. Thursday.

The Funeral Mass will be recited at 11 a.m. Thursday at the Holy Rosary Catholic Church in North Chicago and burial will be in the Assenscion Cemetery, Libertyville, Ill.

Extradite Two To Wisconsin For Car Theft

Richard Gilman, 20, of Burbank, Calif., and Joseph Bray, 19, of LaCrescenta, Calif., were extradited from Escanaba to Marinette County today to face charges of driving away an automobile.

Theodore Johanson, 23, of Seattle, is expected to be conducted by federal authorities to Seattle where he is wanted on parole violation.

The three men and two women—Kate Rasmussen of Seattle and Kathleen Hulse of Los Angeles—were arrested in Escanaba at the request of Los Angeles police and charged with fraudulent use of a credit card.

Authorities here found the five were wanted on charges elsewhere and they are being extradited for trial. The two young women (one is eight months pregnant) may be released to return to the West Coast.

Time Recount In Final Week

The question of whether or not Michigan will observe Daylight Savings Time was down to nine counties and their 153 precincts today.

With the margin against Daylight Time still reported to be about 400 votes, state elections officials began recounting nine precincts in Menominee County and 26 more in Mason County this morning.

The Delta County recount is scheduled to begin at 9:30 a.m. Tuesday in the law library of the Delta County Building. Completion of checks in 27 precincts and two absent voter ballot counting boards is scheduled by Wednesday.

Bernie Apol, Lansing, state elections director, listed the following timetable for the completion of the recount. Number of precincts is listed in parentheses.

Today — Mason (26), Menominee (9); Tuesday — Manistee (15); Wednesday — Delta (29); Wexford (19); Thursday — Ogemaw (18), Alger (12); Friday — Iosco (14), Schoolcraft (11).

Recount in Marquette County was completed Friday with the results showing a "net" gain of 234 no votes. The biggest change came from an Ishpeming Township precinct

where 247 no votes were not included in first returns.

The final Marquette County tally showed 12,831 votes against Daylight Time and 5,953 in favor. Elections officials said votes in four township precincts could not be recounted because ballot boxes either were sealed improperly or the total number of ballots did not tally with the totals shown in poll books.

Daylight Savings Time originally was believed to have been approved in Michigan, but the state canvass showed a defeat by about 400 votes. A call for precinct totals from county clerk's revealed a final margin of 1,501 votes. Through Friday, that margin had dwindled to about 400 votes.

Obituary

FREDA OLSON

Complete funeral services for Freda Olson were held at 11 a.m. today at the Central United Methodist Church with the Rev. Karl Hammar officiating. Burial was in Holy Cross Cemetery.

The Dutch, Hungarians and French sometimes call corn, America's food gift to the world, "Turkish wheat."

Indianapolis Life Insurance Company
Announces The Appointment Of
KARL W. ARLT
As
General Agent
In Escanaba And Vicinity

Indianapolis Life is pleased to announce the appointment of Karl W. Arlt as General Agent in the Escanaba, Michigan, territory. In his new capacity, he will recruit and train other agency associates in addition to building and servicing his own clientele.

Karl Arlt brings to his new position several years of experience and training in the life insurance business. He has completed extensive study programs and is currently completing his final year of a two-year course sponsored by the Life Underwriters Training Council. With his former company, Karl achieved significant awards as a sales leader.

Karl, his wife, Patricia, and their two children reside at 521 South 15th Street. Community interests include active membership in the Immanuel Lutheran Church. In addition, Karl is currently president of the Central Upper Peninsula Life Underwriters Association.

Indianapolis Life is a quality legal reserve mutual company with 63 years of distinguished service to policyowners. The company has over \$1 billion of insurance in force and ranks in the top 5% in assets of all life insurance companies in the nation. Indianapolis Life offers a complete line of life, health, and annuity contracts at "remarkably low net cost."

Qualified by both training and experience, Karl Arlt stands ready to provide quality service. Consult him regarding your life and health insurance needs as you would your doctor or lawyer in their respective fields.

Pueblo Heroism

The Navy would have been naturally concerned with the loss of its spy ship Pueblo to the North Koreans, which means, of course, to the Russians.

But added to its natural concern about seizure of one of our war vessels by hostile nation was its concern about the inquiries voiced by influential Senator Richard Russell (D-Georgia) who is the retiring head of the Senate Armed Service Committee. This is the group that recommends Navy program financing and its reaction to Navy performance weighs a ton.

Senator Russell wondered why her crew didn't defend the Pueblo against the Communists who seized her in international waters, or, failing that, why they didn't scuttle her to keep her from falling into the hands of our enemies. The Pueblo was equipped with detection devices that represented the expenditure of hundreds of millions of dollars in research. To make a "present" of all this sophisticated equipment to Russia made Russell wonder what the Navy was up to.

His reaction, we believe, is that of most Americans. We don't understand what happened. The Navy Court of Inquiry at Coronado, Calif., which has been investigating the Pueblo seizure, hasn't helped public understanding very much yet. Some of the sessions have been closed to protect secrets of the service so the public record isn't complete.

Cmdr. Lloyd Bucher of the Pueblo was informed by the five admirals conducting the inquiry that he was suspected of violating Navy regulations in surrendering the Pueblo to the North Koreans and that anything he says in the inquiry might be used against him in court-martial proceedings.

Commander Bucher revealed himself quite deeply scarred emotionally by his captivity and the trauma of losing his ship to the enemy without defending or destroying it. His testimony is a reminder to us safe stay-at-homes of the deadly war that our brave men are fighting with the Communists. He tried to commit suicide while in captivity because the torture and terror were unsettling his mind. He made a false confession of spying on the North Koreans to save his crew from massacre.

Let all who would have acted more bravely under the abuse of the Communists cast the first stone at Commander Bucher. We will be much more interested in the Navy's explanation of its preparation for defense of the Pueblo or her self-destruction and what it told Commander Bucher when he was under enemy order to surrender, than in the Navy's reaction to his conduct.

The seizure of the Pueblo is the kind of thing that Teddy Roosevelt would have made war over. We let them get away with it because we were not prepared to defend nor to destroy the Pueblo in entrapment. It was explained that effort at recovery would have meant the deaths of the crew and loss of the ship. We chose to suffer the belittling incident rather than to enlarge the war in Asia, which is already going so badly for us.

It is a good bet that there won't be another Pueblo incident again soon, and that's a confession that there was a goof in this one. This is what the inquiry should be about.

The Russians spy upon our naval movements constantly and openly. Guess what would happen if a two bit nation like North Korea were to seize a Russian ship and imprison and abuse its crew for 11 months?

We went into the Spanish American War with the slogan "Remember the Maine" after our battleship Maine was destroyed by a bomb in Havana harbor. We should come out of the Asian war with the resolution to "Remember the Pueblo."

Girl's Best Friend

A diamond is forever, so they say, but diamond mines may not be.

Consumption of diamonds, both for decorative and industrial purposes, is increasing every year. In 1940, a little over 14 million carats were mined; in 1950 — 15.2 million; in 1960 — 28.1 million; in 1967 — nearly 43.4 million.

"Unless discovery of new deposits keeps pace with depletion of existing ones, diamonds are certain to become scarcer (and more expensive), with the pinch being felt mostly in large stones of fine quality," writes Dr. George Switzer in the trade magazine, Jewelers' Circular-Kerstone. Switzer is chairman of the Smithsonian Institution's Department of Mineral Sciences.

Until recently, Africa produced 98 per cent of the world's diamonds. This figure has now dropped to about 84 per cent. Many old mines have been abandoned and an intensive search is under way to find new deposits, in the sea as well as on land.

Russia claims to have two mines in Siberia as rich as those in South Africa. Soviet production in 1967 was estimated at about 15 per cent of the world's total.

Production of man-made diamond grit can be readily stepped up, but synthetic diamonds for certain industrial uses such as drill, tool and die stones are not yet within reach. Neither have synthetic diamond manufacturers succeeded in making gem-quality diamonds.

A girl's best friend is likely to be a better friend than ever as time goes on.

BARBS By PHIL PASTORET

Friend says that by the time he learned to ride at the dude ranch, he no longer could.

No, Gwendolyn, "past tense" doesn't mean that you're now relaxed.

One sure way to get back on your feet is to have two cars, a wife, and a child of driving age.

Confession may be good for the soul, but it doesn't do much for a lawyer's income.

"The Trick Is to Slow Up Just the Front Half!"

Traffic Control In State Will Tighten

LANSING — The State Safety Commission at its January meeting gave final approval to a list of priority traffic safety legislation, heard a research report on drinking drivers from the University of Michigan, and gave encouragement to an experimental young driver research and educational project from the same institution.

Among improvements in the traffic laws requested are a further upgrading of Michigan's high school driver education system for the youth, a new requirement that new drivers of all ages get at least a minimum driver orientation program and the further expansion of the driver safety schools primarily intended for drivers who find

their way to traffic court. These schools are now promoted by the Department of Education and staffed and supervised by local officials in 15 counties in the state.

The Department of State proposes to classify driver licenses in accord with the vehicles the individual is capable of driving. Thus the traditional little old lady who only drives to church would have to pass a special test if she wanted to make it on a motorcycle. This is in accord with the new standards established by the U. S. Department of Transportation. A written exam to accompany all driver license renewals and a Board of Medical Advisors to assist the licensing authorities in assessing the physically or mentally unfit to drive are other significant changes advanced by the Department.

Renovation of laws protecting pedestrians, uniformity in local speed ordinances, a statute on defective tires, classification of the law on the many kinds of flashing lights now permitted for emergency and special vehicles, and the accelerated removal of the hundreds of abandoned vehicles which add menace to street and roadside are among the recommendations of the State Police.

Increase in the distance now specified for advance warning signs on the highways, certain

changes at railroad crossings, regulation of driveways to eliminate dangerous traffic flow complications, and the use of alcohol and loitering at roadside parks and rest areas are among the technical and highway housekeeping improvements indicated by the Department of State Highways.

Lyle Fikins, engineer of the University of Michigan Highway Research Institute, reported on the Wayne County Highway Fatality study conducted in collaboration with the medical examiner's office. The study, covering 177 traffic fatalities, reported that of the dead drivers 63% were "impaired" and 49% "intoxicated" under Michigan law. A high percentage had traffic or drinking histories.

William Barber of Michigan State University's Highway Traffic Safety Center reported that over 1,000 police officers had been trained in the use of the Breathalyzer, a scientific instrument for determining the degree of involvement of a drinking driver. Arrests for being under the influence had increased from 3,000 in 1966 to 17,000 in 1968 when the implied consent law became effective. A high degree of convictions was reported. Three thousand drivers refused the test. Most of these had their licenses suspended at special hearings.

Oswald: "We have mentioned on many occasions that the chief use for the Blackwood convention is to keep out of bad slams."

Jim: "There is no reason why we shouldn't discuss that some more. The correct time to use Blackwood is when you intend to bid a slam provided your opponents can't cash enough aces off the top to beat you before you get started."

Oswald: "The second use for Blackwood is to decide about seven once you are committed to six. Here is a hand from a rubber bridge game at the Cavendish Club in New York that illustrates both points."

Jim: "The moment that North found a jump rebid in diamonds South knew that he was going to a small slam if his partner would show up with two aces. True, there was some chance that North could hold two losing hearts and that a slam might be

beaten but South was going to take that chance."

Oswald: "When North showed three aces South was ready for the second part of Blackwood. He bid five no-trump to ask for kings."

Jim: "I see that South went right to seven no-trump when his partner showed one king."

Oswald: "That shows an unusual use of Blackwood. South knew that the grand slam would only be a cinch if his partner held the king of diamonds as his one king but South was willing to bet that his partner would not have jumped to three diamonds on a suit headed by ace-10 only."

Jim: "Even then the slam would be on a finesse, so at the worst South would have an even money chance. I note that he also bid the slam in no-trump."

Oswald: "Of course, he bid it in no-trump. He could be sure that this particular hand would play perfectly in no-trump and that there would be no danger of a ruff of the first trick when there were no trumps around to ruff with."

The Family Lawyer

PROPERTY CONDEMNED
 If the government wants your property for some public use, the government may take it. But when that happens, you are entitled—under the Constitution—to "just compensation" for the loss.

Unhappily, your notion of "just" and the government's notion of "just" might be very different. When citizen and government can't get together on the price, what rules prevail?

Almost always, the test applied by the law is "fair market value"—that is, the price your property would bring in a normal sale by a willing seller to a willing buyer.

This leaves out elements of value that are strictly personal to you. Take this case:

A home owner claimed several thousand dollars for some shade trees, located on a strip of his land condemned for a highway. Although the trees added little to the market value of the property, the man pointed out that he had given them tender loving care for more than 20 years.

But the court denied compensation for this special value, saying:

"The law simply does not allow compensation for such personal feelings."

Nor can you collect for future values that can be seen only through rose-colored glasses. In one case the owner of raw acreage tried to show the court how valuable his land could be, some distant day, if it was subdivided and sold for home sites.

However, the court would not listen. As one judge put it:

"To permit such evidence would convert an eminent domain proceeding into a guessing contest."

On the other hand, you are entitled to be paid for possibilities that are realistic—even if you yourself have not yet tried to realize those possibilities.

Thus, a man owning land on a business street won compensation for its income potential, even though he himself had only a house on it. The court said the income potential was real enough so that a buyer would consider that element in making an offer.

In short, the law seeks a fair balance between the government, hoping to cut expenses, and the property owner, hoping to hit the jackpot. In the words of the United States Supreme Court:

"Compensation shall be just, not merely to the individual whose property is taken but to the public which is to pay for it"

Ann Landers Ex-Lover Requests He Be Mentioned

Dear Ann Landers: Must a girl pay the rest of her life for a love affair she had in high school? I loved Rod and he loved me. I gave myself to him willingly and happily when I was 17. He didn't talk me into it. I wanted to belong to him completely. The gift of my virginity was the ultimate proof.

We grew apart when Rod went to Notre Dame and I went to the University of Michigan. Four years have passed and Rod is now married to another girl. I am engaged to marry a very fine young man.

Yesterday Rod came to me and asked if I had told my fiancé about us. I said, "Of course not." He replied, "Well, I've told Eunice and I insist that you tell Eugene. Otherwise your life together will be based on a lie."

Ann, I am not a tramp and I never was. I know now I made a big mistake. But I don't want to tell my fiancé. Do you feel I am being dishonest? Eugene and I started to be intimate a few months ago. He never asked me if there had been others and I never told him. Please tell me what to do. — BAMBIE

Dear Bambi: If Notre Dame Big Mouth wanted to bare his soul to Eunice, fine and dandy, but it was mighty rotten of him to include you in his "True confessions."

Keep quiet. People who marry should be willing to accept one another as they are. Case histories are for physicians and biographies are for historians.

Dear Ann Landers: The girls I date always compliment me on my promptness. They say they appreciate it, but they are never on time. What's the matter with people anyway?

I've always prided myself on being prompt. If I'm unexpectedly detained and it appears that I'm going to be late for an appointment, I phone and say so. This is simple courtesy — plain, everyday manners. Why don't people give me the same consideration? I spend half my time waiting. It's maddening.

Tell me, Ann, am I the only prompt person left in the world? —TIME ON MY HANDS

Dear Time: No. There's me. Unfortunately I can offer no solution to this dilemma because it's awfully hard to remodel your friends according to

your own specifications. One protection against "The Late, Late Show" is to make arrangements whenever possible to have your friends come to YOU. In that way you can stay busy until they arrive. When picking up a tardy girl friend for a date, I suggest you take along some reading material and relax and enjoy it.

Dear Ann Landers: I am 16-year-old girl with kissing problems.

Al's kisses are so heavenly they are like you see in the movies. The trouble is, he is sort of a rat. Cal is a great person, considerate and sweet, but he kisses like my 56-year-old uncle. Hal is the grooviest, but his kisses are like a vacuum cleaner. Analyze this, please, one at a time. I'm — ZONKED

Dear Z: Drop Al. Train Cal. Turn the vacuum cleaner down to low.

Maximum official temperature reading in Escanaba yesterday was 47 degrees, which has been exceeded only twice as a January high in the history of the U. S. Weather Bureau here, it was reported by Meteorologist Henry Hathaway.

50 Years Ago

Charles L. McCarthy, formerly a well known Escanaba "rail", has been promoted to the position of traveling engineer on the division in France where he has been operating an engine.

John Ecklund of Stonington and his son, John Jr., who recently returned from France, were united in the middle of Bay de Noc. Young Ecklund was crossing the ice to surprise his family, when he met his father who was on his way to Escanaba on a business trip.

Burn Victim Is Welcomed Home

Stephen J. "Steve" Micheau, 19, who suffered critical burns on Oct. 15, 1968, was welcomed home to Escanaba on Sunday from Milwaukee where he has been a patient at the Burn Center, St. Mary's Hospital.

Meteor Makes Flaming Display

CHICAGO (AP) — Persons in several midwestern states apparently witnessed the flaming end of some space debris early Sunday.

Sightings of brilliant flashes of light accompanied by an orange fireball were reported in Illinois, Iowa, Wisconsin and Michigan.

Some eyewitnesses even claimed to have seen spaceships landing. Others said flaming objects fell short distances from them.

James Wray, a Northwestern University astronomer, said the flash was probably caused by a large meteor breaking up in the atmosphere. He added that it might also have been the remnants of a comet or rock thrown into space by celestial explosions. He added that witnesses could easily have misjudged the distance of the fiery display.

Dr. J. Allen Hynek, Northwestern's astronomy department chairman, said the flash could have marked the re-entry of a burned out section of a U.S. or Russian space rocket.

Hynek agreed the flash most probably came from remnants of a meteor but added he was puzzled because "most meteors or their fragments have some sort of tail. It seems this was not the case" with the Sunday's display.

Ky Proposes Private Talks

PARIS (AP)—Vice President Nguyen Cao Ky of South Vietnam said today he is willing to meet "the other side" in private talks on bringing peace in Vietnam.

Ky added that he is ready to meet them whenever they are willing, in Paris or anywhere else.

mother, Mrs. Gordon Micheau, and his sister at the Escanaba Municipal Airport as he left the Harnischfeger Corp. plane, and was escorted to the family home at 428 S. 14th St. He is feeling well and is recovering but will continue to receive additional therapy.

Steve was released from St. Mary's Hospital at 10 a.m. Sunday, was taken to Mitchell Field at Milwaukee where he boarded the Harnischfeger plane, and left there at 12:10 for the flight to Escanaba. Accompanying him was Jerome Stannard, the company personnel supervisor.

Ed Bruhns, manager of the Harnischfeger construction equipment plant at Escanaba, and Mrs. Bruhns, were on hand at the Escanaba airport to greet him and wish him well. On Oct. 15 last year Steve was burned accidentally while he was employed as an operator-tracer burner for Harnischfeger Corp. at its construction equipment plant here.

His burns were so severe that he was removed to Milwaukee in a Jon Thorin ambulance plane arranged for by the company, and entered the Burns Center at St. Mary's Hospital for treatment. During the approximately 15 weeks of his stay in the hospital, Steve lost about 50 pounds, but is recovering satisfactorily.

U.S. Tells Its Terms; It's Up To Hanoi Now

(Continued From Page One)

paing promises to remove the surtax as soon as possible or at least reduce it significantly. Proposals have been made to cut it to five per cent.

In response to a question on how his administration would deal with inflation, Nixon noted that he has created a Cabinet Committee on Economic Policy which already is working on the problem.

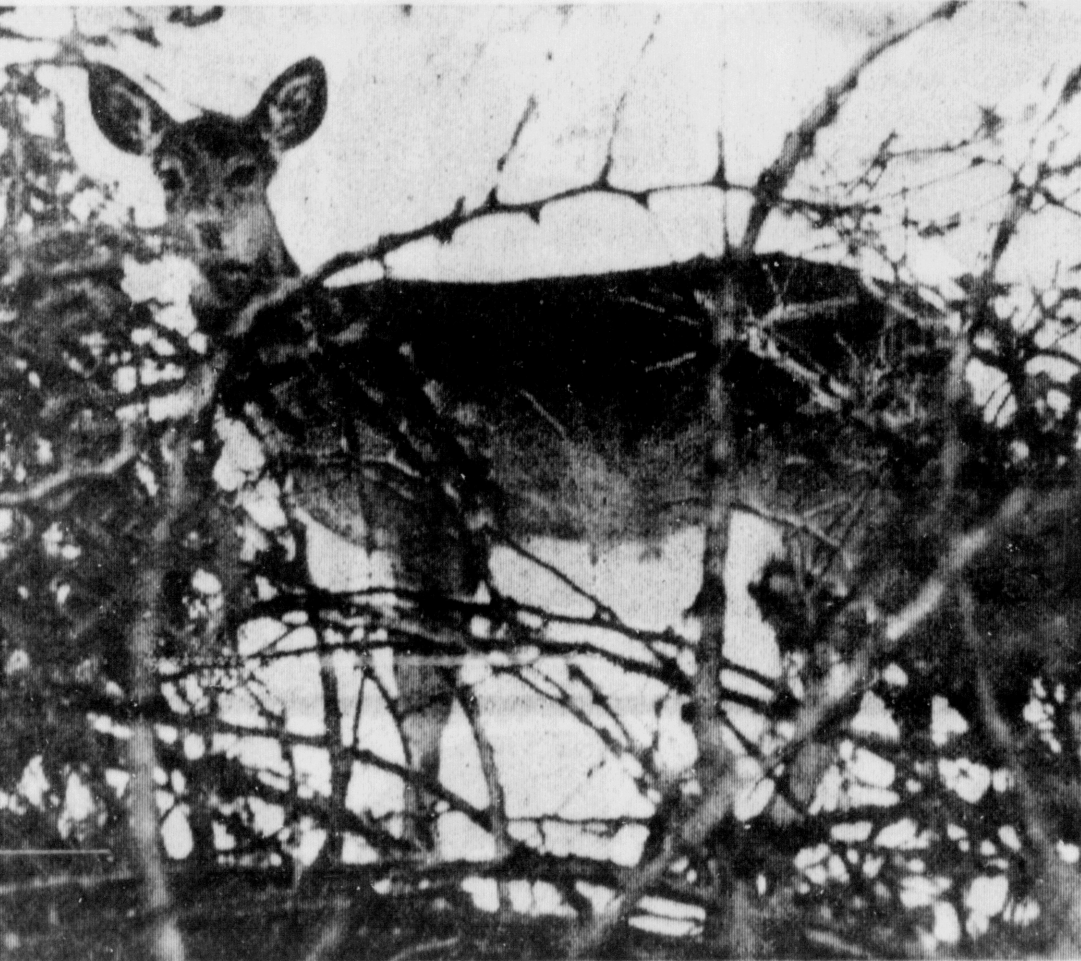

"We are concerned about escalation of prices to a rate of 4.8 per cent," the President said.

The President said his administration will seek to do "some fine tuning of our fiscal and monetary affairs" to take some of the heat out of the economy, but he said it would try to do so "without too much manipulation" of economic forces.

DEER IN A cutting near Hardwood in Dickinson County are pictured. The deer are not wary of humans, as the proximity of the photographer indicates. They are still in

good condition and active physically, but the deep snow, high browse line and dependency upon cuttings for food indicate trouble ahead.

THIS DEER in the cutting of Melvin Edberg of Hardwood in Dickinson County has stripped the browse from the cedar tree in the foreground and is waiting for more cedar to be felled. Deer wintering in cuttings are fortunate, but there is not a normal volume of logging in the Upper Peninsula this winter because of the deep snow and a feed crisis exists. (Photos by Dick Ferris, Iron Mountain News, for Panax)

Chrysler Will Close 4 Plants

DETROIT (AP) — Chrysler Corp. announced today it is trimming first-quarter production by 36,720 cars through shut-down of four plants for a week each and two plants for two weeks in February.

The cutback, Chrysler said, is "to bring car assemblies in line with projected sales" for the quarter.

Chrysler said, however, that its output of 470,034 cars in this year's first three months still will top its January-March record, set last year by output of 468,034 automobiles.

Plants at Windsor, Ont., and Belvidere, Ill., are to be shut down the week of Feb. 3; Jefferson Avenue, Detroit, and Newark, Del., the week of Feb. 10; Lynch Road, Detroit, and St. Louis, week of Feb. 17, and Windsor and Belvidere again, week of Feb. 24.

Briefly Told

Members of Escanaba Area High School Class of 1960 will meet at 7:30 p.m. Tuesday at 308 S. 8th St.

Robert E. Constantineau, DAV field service officer, will be at the Civic Center in Escanaba from 1:30 to 2:30 p.m. Feb. 17 to interview veterans.

Public high school religion classes will be held at 7 p.m. Wednesday at Holy Name High School. Students are to pay semester fees at this time.

A car driven by Alexander Quarrell, Sault Ste. Marie, Ont., struck and killed a deer on U.S. 2 in Ensign Township about 1:40 a.m. today, State Police reported. Quarrell was not injured.

State Police issued traffic summons over the weekend to Roger Casey, 1602 Washington Ave., excessive noise; Allan Sanville, 418 S. 18th St., expired operator's license; Michael Simons, 1204 S. 14th St., careless driving; Keith Edberg, Rapid River, defective brakes.

Michael Latvala, 19, Trenary, was ordered to appear in District Court on a charge of being a minor in possession of intoxicants. State Police said he was arrested on U.S. 2 near Rapid River about 9:45 p.m. Sunday after officers stopped his car for a traffic violation.

Police Chief Richard Fredrick today repeated a request for courtesy and cooperation on the part of motorists in the present snow emergency. Pedestrians, both children and adults, must use the streets because sidewalks are not yet cleared. Extra caution is necessary, the chief said.

Escanaba police have issued traffic court notices to Charles A. Nelson, 600 N. 19th St., driving left of center; Jerry J. Couillard, Bark River Rte., speeding; Dennis R. Nelson, 1028 N. 18th St., disobeying a stop sign; and Clarence W. Clark, Escanaba Rte. 1, speeding and expired operator's license.

In Service

Gerald J. Harris, son of Mr. and Mrs. Eugene Harris of Wells entered the United States Air Force Dec. 30. Airman Harris is stationed at Lackland AFB, Tex., where he is presently undergoing basic training.

Peninsula Dealt Out Of Interstate Again

By JEAN WORTH

The Upper Peninsula is suffering a sort of schizophrenia, or split personality, over highway policy.

The Upper Peninsula professes to be for highway development, but it differs a great deal within itself about where the development should be and of what kind.

Resort and tourism interests don't want relocation of highways in any program of improvement because they have big investments in establishments on present routes and are fearful of losing their trade. There are separate organizations in the U.P. pushing for the development of U.S. 2, for U.S. 41 and for M-28.

Such developments are not incompatible but if they succeed the Upper Peninsula's existing major highways will get future highway developments and the chance of concentration on a single highway development effort will probably be fatally impaired.

U.P. Realities

The realities of politics make it difficult for the Upper Peninsula, which gets less than one per cent of Michigan's trunk-line highway construction funds at present, to get any major road work. Unless the U.P. can agree upon some priority of projects it will continue a highway orphan because the State Highway Department does not have enough funds to meet all highway needs and it uses area dissent as an excuse for no action.

When the Michigan Highway Department decided years ago that the Upper Peninsula didn't need inclusion in the national Interstate Highway System except for the 50 miles for I-75 from St. Ignace to Sault Ste. Marie, it effectively dealt the U.P. out of highway modernization.

Interstate Gets Most

The bulk of federal aid for Michigan highways goes to the Interstate System and it is being improved with all sorts of refinements while the basic safe highway needs of the Upper Peninsula — even for full access two laners — are not being met on the federal routes that aren't part of the Interstate System.

Henrik E. Stafseth, state highway director, explains that when the 1968 Federal Highway Act provided for 1,500 additional miles to the Interstate System, Michigan was allocated 96 miles of the total for extension of Interstate Route 69

northeasterly from I-94 at Marshall via Lansing to Flint.

"In determining which routes should be included in our request for additional Interstate mileage, we did consider the feasibility of including an east-west trans-Upper Peninsula route," said Stafseth. "This route would meet some of the established Interstate criteria if it were extended westerly to Interstate Route 94 in Minnesota."

Plan U.P. Study

"However, it was decided not to include this route as the majority of the Boards of Supervisors of the involved Up-

L. G. Nicholson Taken By Death

MANISTIQUE — Leon G. Nicholson, 74, of 419 Range St., died at 7:30 a.m. today at Schoolcraft Memorial Hospital where he had been a patient for five months.

He was born Sept. 5, 1894 in Manistique and was a life long resident. Mr. Nicholson was married to the former Ruby Holt, Nov. 15, 1922 in Escanaba. He was a member of the Church of Redeemer, Presbyterian of Manistique, Masonic Blue Lodge 371, Royal Arch Masons, Chapter 127, Francis M. More Consistory, Ahmed Shrine Temple, Knights Templar Commandery, Hiawatha Shrine Club of Escanaba, Order of Eastern Star, Manistique, the 25 year club of Inland Lime and Stone Co., and a life member of Manistique Elks Lodge 632.

He had been employed by the Inland Lime and Stone Co. for 45 years retiring Oct. 1, 1959.

Survivors include his widow; one sister, Mrs. H. T. Baker of San Antonio, Texas; two nieces, Mrs. Betty Lindall of San Antonio and Mrs. David Fry of Coral Gables, Fla.; three nephews, George Nicholson of Pittsburgh, Pa., Donald of Cincinnati, Ohio and Morris Baker of Memphis, Tenn.

Friends may call at the Messier-Brouillette Funeral Home after 3:30 p.m. Tuesday and Masonic services will be conducted at 8 p.m.

Complete funeral services will be held at the funeral home at 2 p.m. Wednesday with the Rev. William Brauer officiating. Burial will be in Lakeview Cemetery.

per Peninsula counties are presently on record recommending the expansion of existing highway facilities rather than the development of a new freeway.

"All construction approved for Interstate financing (90 per cent federal) on the Interstate System must be constructed as a freeway; that is, full control of access and on limited access right-of-way."

"Until it has been determined what type of facility will best serve the Upper Peninsula it would have been presumptuous on our part to commit the area to a freeway type facility. A study, in which local participation will be solicited, will be initiated in the near future to resolve this question."

Ties To West

"Another reason for not requesting the Upper Peninsula route was that such a proposal would add approximately 300 miles to Michigan's request for 600 miles for a total of 60 per cent of the national allocation. An east-west Interstate route across the Upper Peninsula will also require close coordination of efforts and a paralleling of priorities with the States of Wisconsin and Minnesota. Coordination of this nature would have been extremely difficult in view of the limited time period which was allowed to prepare our submittals."

"Based on the aforementioned factors, our statewide priority of needed highway improvements and the limited number of Interstate miles available on a national basis, we felt that submission of the trans-Upper Peninsula route was inadvisable at this time."

"I believe subsequent action by the Department of Transportation which approved only 96 miles of the 600 miles submitted by Michigan, 130 of 1,200 in New York, 67.2 of 980 in Kansas, 74.3 of 840 of Iowa and 67.2 of 720 in North Carolina, substantiates our position."

The Family Of
LEON NICHOLSON

THIS HUGE CHECK which State Treasurer Allison Green is signing is for a huge amount. It is the first \$3,500,000 payment of state gas tax money to the Mackinac Bridge Authority that enabled the authority to drastically reduce tolls at the bridge. Watching Green are, from left, Prentiss M. Brown, chairman of the Bridge Authority; Senator Thomas F. Schweigert, R-Petoskey who spearheaded legislation in the senate to provide the funds for the Authority; Rep. Robert Davis of St. Ignace, who pushed the legislation; and Michigan's new Governor William G. Milliken of Traverse City.

First City-Wide Race Inquiry

Commission Rules That Pontiac Is City Divided

DETROIT (AP)—Pontiac is a city divided by racial and ethnic prejudices and fears, says the Michigan Civil Rights Commission.

The commission presented its findings today on the first full-scale community-wide inquiry on race relations ever conducted in a Michigan city. Included were recommendations on how to ease the tensions.

The inquiry was launched after a 17-year-old Negro was shot and killed by Pontiac police Dec. 7, 1967.

"The shooting seemed to symbolize the mutual mistrust which had been growing among white and nonwhite citizens," the commission explained. "The incident also underscored the importance of community attitudes in the over-all well-being of Pontiac."

Justified

Whatever the facts in the case, the commission said, the white power structure of the city assumed the shooting was justified, and the nonwhite community felt the youth had been shot because he was black.

"If a riot had started in Pontiac over this shooting, it would have been because of the attitudes held by citizens—not because of the facts of the case," the commission added.

In Pontiac, it said, Negro and Spanish-American citizens are excluded from full participation in employment, housing, education and social services.

"They are often denied equal protection under the laws and equal access to jobs in law enforcement agencies," the commission declared, adding:

"The physical isolation which has resulted between white and nonwhite citizens has led to a communications gap of staggering proportions."

Show Little Concern

Civil and governmental leaders show little concern for or understanding of minority group

Raid In Sicily Caps Counterfeit Ring Investigation

DETROIT (AP)—An investigation into the largest counterfeiting operation ever discovered in Michigan was climaxed Friday more than 5,000 miles away in Palermo, Sicily.

Police said three persons were arrested in a raid in which some \$1 million in counterfeit \$20 bills was recovered, climaxing a seven-year investigation by Italian, European and American authorities.

The phony bills were part of some \$3 million in bogus twenties printed in Detroit in 1962. Since that time, some 150 persons have been arrested in connection with the counterfeiting operation.

A Secret Service spokesman in Detroit said "It sounds like this just about accounts for the rest of the money." He added, "These bills were the famous Q 170. They have bothered us periodically off and on since 1962."

The Q 170 referred to a code number printed on the bills which at the height of the counterfeiting activity in Detroit in 1964, were being turned in to the Secret Service at the rate of some 1,000 per week.

problems, and nonwhites grow more and more distrustful of a community they feel is trying to contain them, the commission said.

"Pontiac is not the only community in Michigan with racial problems," the commission reported, adding that other communities would be investigated in the future.

It said other communities could benefit by reviewing the recommendations in light of their own individual practices and problems.

The commission recommended that city and county officials begin affirmative action programs to recruit and upgrade nonwhite employees, and that state, federal, county and city job opportunities be posted in all sections of the city, including nonwhite areas.

Jobs, Training

For private employers, it recommended that nonwhite citizens be given every opportunity to obtain jobs and the training needed to move up into managerial positions.

The commission said many nonwhite citizens felt they receive inferior treatment from social service agencies, but it added there was little direct evidence to support the feeling.

It said nonwhites were conspicuously absent from the governing boards of most welfare agencies. Private agencies were urged to make a greater effort to make nonwhites feel welcome in welfare activities and to make them aware of benefits available.

Residential areas of Pontiac are clearly segregated, the commission said, with nonwhites confined to a slowly expanding ghetto on the South Side.

Schools Suggested

More low income housing units are needed, it said, along with strengthening of code enforcement, a housing information and advisory service, adoption of fair housing practices by real estate dealers, and acceptance of nonwhite licensed brokers into membership by the Pontiac Board of Realtors.

Pontiac's schools are racially segregated since the city's educational program is organized on a neighborhood basis, the commission reported.

Testimony indicated that the racially segregated composition of Pontiac's schools will continue until the neighborhoods become integrated or the school board takes affirmative action to achieve racial balance, the report said.

In law enforcement, the commission concluded that police-community relations "is one of

the most critical problems facing the city today."

Don't Trust Police

Clearly, it said, the black community does not trust the police department, and the department has done little to improve the situation.

"Testimony indicated that the Pontiac Police Department has made no significant progress toward creation of an effective police-community relations program," the commission reported.

Of 119 policemen on the city force, the commission staff found five Negro officers—three patrolmen, one detective and one policewoman—and three Spanish-surnamed officers.

The police chief and the city personnel director both testified that there was no systematic recruitment program aimed at the nonwhite community.

Recommendations

Among recommendations listed by the commission were: —Immediate steps by the city administration and police department to establish a broad community-relations program.

—Establishment by the city of a civil service system for the recruitment of all police officers.

—Investigation of all citizen complaints as a matter of course by the police department.

The commission said it feels that race problems could best be solved in Michigan by local people who live, work and participate in community life together each day. It added:

"For nonwhites, the gap is already wide between official promise and practical reality. We hope it is not irreparable."

Railroad Board Notes Tax Status

K. J. Donalds, Escanaba, representing the U. S. Railroad Retirement Board, reminds persons who received regular railroad retirement or railroad unemployment and sickness benefits in 1968 that these payments are exempt from federal and state income taxes.

Such payments should not be reported as income on 1968 tax forms, he said. The Board points out, however, that supplemental employee annuity payments are considered taxable income under Federal income tax laws.

In the opinion of the Board's legal counsel, supplemental annuity payments are exempt from state income taxes in the same manner as regular annuity payments.

Alma College Snow Carnival Begins Friday

Alma College's 1969 Snow Carnival will be off to a folksy start on Friday and end on a psychedelic note Saturday.

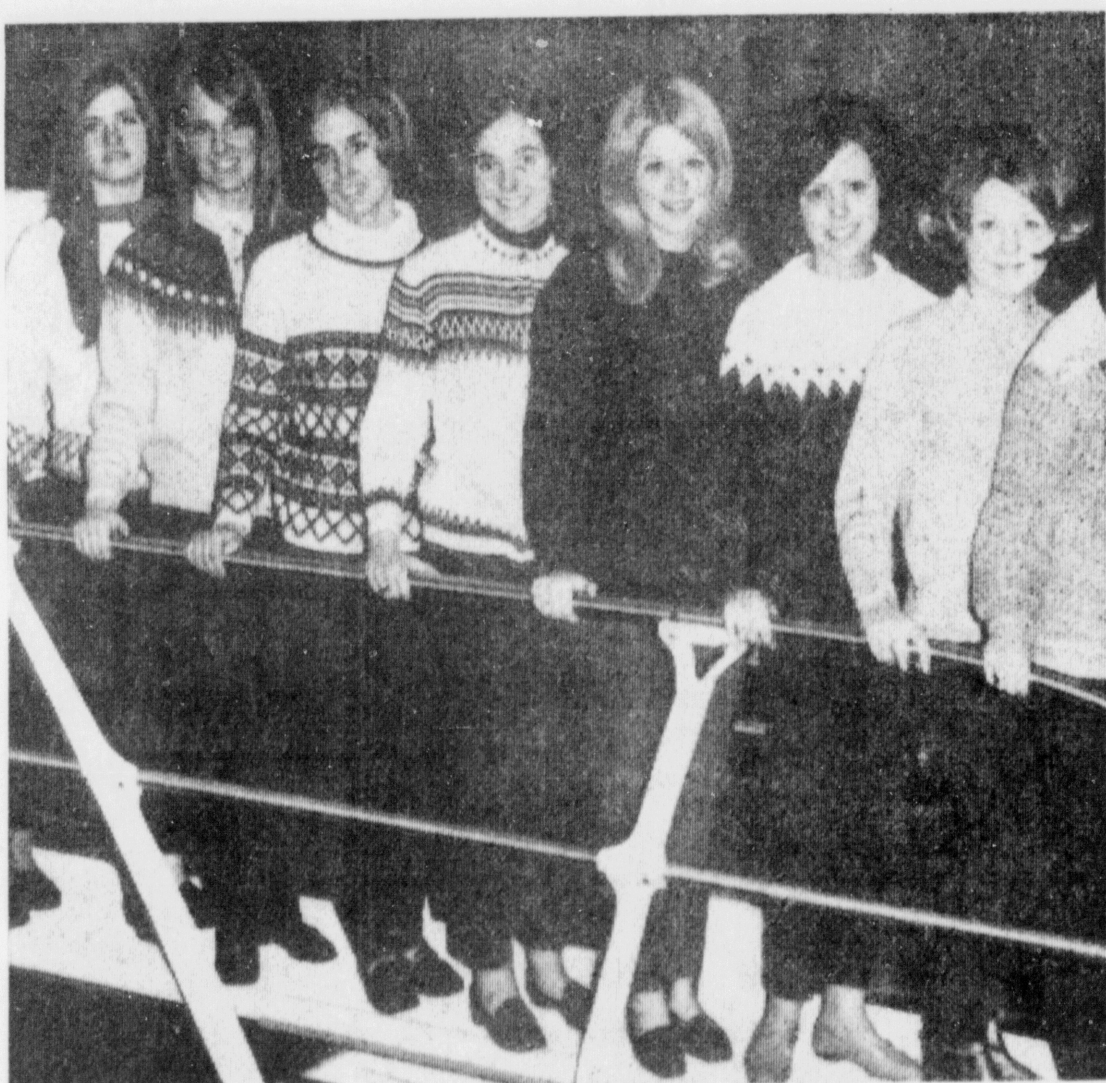

Judging of snow sculpture on the theme of American folklore will begin at 4 p.m. Friday. After coronation ceremonies for the Snow Carnival queen at 7:30 p.m., folk singer Josh White Jr. will present a concert in Tyler Auditorium at 9 p.m.

Saturday afternoon will feature competition in winter games and a matinee presentation of the motion picture, "Dead Heat on a Merry-go-round."

Following Saturday night's Alma-Adrian College basketball game in the college's Physical Education Center, the Snow Carnival Dance will be held in Memorial Gymnasium. Playing at the dance will be the Strawberry Alarm Clock, a psychedelic rock group.

Richard Hisses Adopt Son

Mr. and Mrs. Richard H. Hiss of 30 Woodlawn Ave., Bristol, R.I. announce the adoption of a son, David Lewis on Jan. 16. Maternal grandparents are Mr. and Mrs. Vincent H. Lewis of 622 Stephenson Ave. and paternal grandparents are Mr. and Mrs. Philip M. Hiss of Floral Park, L.I., New York.

LINED UP ON THE high-dive board of the pool in the new Alma College Physical Education Center are the candidates for queen of the college's Snow Carnival to be held Friday and Saturday (Jan. 31-Feb. 1). From left, they are: Susan Pike, Shelburne Falls, Mass.; Susan Garrard, Escanaba; Jo Fideier, Howell; Beverly Schmidt, Benton Harbor; Karen Frost, Hastings; Judy Kebler, Charlotte; Karen Lovett, Farmington. Coronation of the queen will be the highlight of a Friday evening campus ceremony. All of the candidates are sophomores. Miss Garrard, a 1966 Escanaba Senior High School graduate, is the daughter of Dr. and Mrs. M. H. Garrard, Jr., of 1106 7th Ave. S., Escanaba.

Pat Nixon Is Attractive But Squanders Assets

NEW YORK — She has "a classic Anglo-Saxon look with marvelous bones, a fair English complexion and beautiful legs ... a mysterious quality — a bit of the Shanghai Express."

But she squanders her assets. Thus does fashion designer Bill Blass describe Pat Nixon. Blass is one of four leading U.S. designers asked to analyze the new First Lady's style of dress and makeup.

The four (Geoffrey Beene, Oscar de la Renta, Donald Brooks and Blass), all winners of the prestigious Coty Award, agreed that Mrs. Nixon is basically a very pretty woman who does not take advantage of her natural attractiveness.

"She wears," says Blass, "a ghastly bright red lipstick that kills the color in her face. She does not wear any eye makeup and therefore looks mousy. She buys brightly colored, constricting clothes."

The other designers agree. Beene finds her, "terribly attractive physically," but, "overly cautious;" de la Renta says she, "hasn't started blooming yet," and Brooks, the most outspoken of the four, concludes that "she needs an overhauling job."

When it comes to recommending clothes for the First Lady, each designer predictably has his own ideas. The designers' wide-ranging suggestions include, "tailored clothes in muted, neutral colors," "a more feminine and fluid way (of dress)," "Edwardian or Russian-inspired clothes," and clothes that make, "strong, simple statements."

Despite the conflicting advice, however, the summary given by Donald Brooks may prove most helpful to Mrs. Nixon in the future: "Maybe now that she has arrived, she can achieve a feeling of calm and contentment. She can stop considering herself in terms of the average and create her own style."

Bridge Session Held Saturday

Duplicate Bridge was played Saturday evening at the Elks Club and persons receiving 50 per cent or better were:

Bob Pearson Jr. and Sr., Mr. and Mrs. Clyde Lepisto, Fran Boyle and Bill Connelly, Mr. and Mrs. Leo Alperovitz, Mr. and Mrs. Ken Dufresne, Jean Bonefeld and Cal Douck, Mrs. B. Pearson Sr. and Mrs. B. Pearson Jr.

The next bridge session will be at 7:30 p.m. Friday at the Stonehouse. The public is invited.

Rock Ladies Aid Plans Workbees

The Rock Ladies Aid met at the home of Mrs. Anna Carlson on Wednesday.

Workbees were planned as follows: used greeting card project at the Chapel on Saturday; bandage rolling and hospital gown making at the Carlson home Monday, Feb. 3 at 7 p.m. Mrs. Martin Falck will be hostess at the next regular meet on Feb. 19. An invitation to attend the meeting of the Carlshend Ladies Aid in March was accepted by the ladies.

Pat Yeadon gave the devotional message and Mrs. Carol Yeadon sang a solo. Refreshments were served and a time of fellowship followed.

Events TOPS Club

Silhouettes TOPS Club will meet tonight in room 260 of the Junior High School. Weigh-in will be at 7 followed by the business meeting. Members who have not voted on rules may do so tonight.

Gold Star Mothers

Gold Star Mothers will meet at 7:30 p.m. Tuesday at the home of Mrs. Pearl Dupont, 217 N. 13th St.

Patrol Leaders

Troop 15 Brownies of St. Patrick's School elected the following patrol leaders, Laurie Barron, Kathy Lessard and Janet Ryan. Ann Potter, Mary Guay and Kathy Meunier were elected assistant patrol leaders. The girls will visit the American Legion Hall in March to thank the Auxiliary unit for a gift of a flag.

Church Events

Salem Ev. Lutheran The Ladies Aid will meet at 2 p.m. Wednesday in the church parlors. Hostesses for the day will be Mrs. Clyde Moersch and Mrs. Henning Nelson.

Central United Methodist Tuesday, Jan. 28, 6:45 a.m.—Men's Breakfast Fellowship.

First United Methodist Tuesday, Jan. 28, 6:45 a.m.—Men's Breakfast Fellowship at the Sherman Hotel.

First Presbyterian Tuesday, Jan. 28, 1:15 p.m.—Women's Association Luncheon; 8 p.m.—Dartball.

Rock 4-H'ers Working On Winter Projects

The Rock 4-H Club met at the Rock Lions Clubhouse Wednesday for the monthly meeting. Reports were heard from the Teen Home Design group who are making furniture for their home design room. Two younger home design project members have made waste baskets with old Christmas cards and covered a shoe box with wallpaper.

Textile Painting Group will meet with Mrs. Leo Koski this week.

On the money making project Committee this year are Christine Mankiewicz, Sue Koski and Patricia Waak and serving in the Local Achievement committee, decorations and theme are Mark Wilcox, Jim Mankiewicz, Priscilla Waak and Annette Kulack.

Since the County 4-H council will not be buying year pins for members, the club voted to purchase their own pins. The next meeting will be Feb. 12. Two new members are Renee Kivela and Marlene Leach.

Since most project work is started and has to be completed by the middle of March, further enrollment for winter projects is closed.

Tel-award reports by teen members must be completed by Feb. 1.

Births

JOHNSON — At 12:32 p.m. on Jan. 23, a son, William Harold, weighing 8 pounds and 1 ounce, was born to Mr. and Mrs. H. Lloyd Johnson of 1914 7th Ave. S. The mother is the former Elaine Lindquist.

WICKHAM — Mr. and Mrs. William Wickham of 322 S. 8th St. welcomed their first child, a son, Randall William, at 2:31 p.m. on Jan. 24. The infant weighed 6 pounds and 15 ounces at birth. Mrs. Wickham was Diane Sheedio.

GEHRKE — A son, Dale Kenneth, weighing 9 pounds, was born to Mr. and Mrs. Kenneth Gehrke of 1710 2nd Ave. S. at 7:32 p.m. on Jan. 25. Mrs. Gehrke is the former Karen Stier.

ERICKSON — At 5:05 a.m. on Jan. 26, a son, Christopher Jason was born to Mr. and Mrs. Verne Erickson of Rte. 2, Bark River. The infant weighed 7 pounds and 14 ounces at birth. The mother was Elaine Johnson.

ANDERSON — Mr. and Mrs. John Anderson Sr. welcomed their first child, a son, born at 4:03 a.m. on Jan. 27. The infant weighed 9 pounds and 11 ounces at birth and has been named John David Jr. Mrs. Anderson is the former Susan Johnson.

Tigers Selected 1968's Top Team

DETROIT (AP) — Its been said that "all good things come to those who wait." The Detroit Tigers waited 23 years for a pennant and World Series championship and now the "good things" won't stop coming.

Latest honor bestowed on the World Champions came Sunday when Detroit was named the Associated Press 1968 Team of the Year. Although everyone in Michigan and everyone associated with the team probably had little doubt which was the "team of the year" sports writers and broadcasters made it official by giving Detroit 533 votes, including 109 first place votes in nationwide, year-end balloting.

"It is quite an honor to be picked the best team," said manager Mayo Smith without any visible surprise. "But the players don't think about such honors when they're playing."

Before 1968 the last time Detroit won an American League pennant was in 1955. But it was not the season's performance that influenced the voters for the year's No. 1 team, Smith said.

"I think probably the reason we were picked was because of coming back after being down 3-1 in the World Series," he said, "I'm sure that's what influenced the voting."

There were several heroes in that Series, but the biggest was Mickey Lolich, who won three games including the finale against St. Louis ace Bob Gibson after the Tiger southpaw had only two days rest. Another was 31-game winner Denny McLain who won the sixth game despite receiving treatment for a sore arm before the game. Veteran rightfielder Al Kaline was another star, adding 379 for the Series.

Since that big final victory in St. Louis individual Tigers have received numerous awards,

McLain was named the league's Most Valuable Player and received the Cy Young award as its best pitcher. Smith was named manager of the year. Other players received various honors and most began the usual round of banquet engagements and per-sonnel appearances.

"Sure it's nice to be team of the year," said first baseman Norm Cash. "But the money we get as a result will mean a lot more."

Cash said such awards don't put any extra pressure on a team.

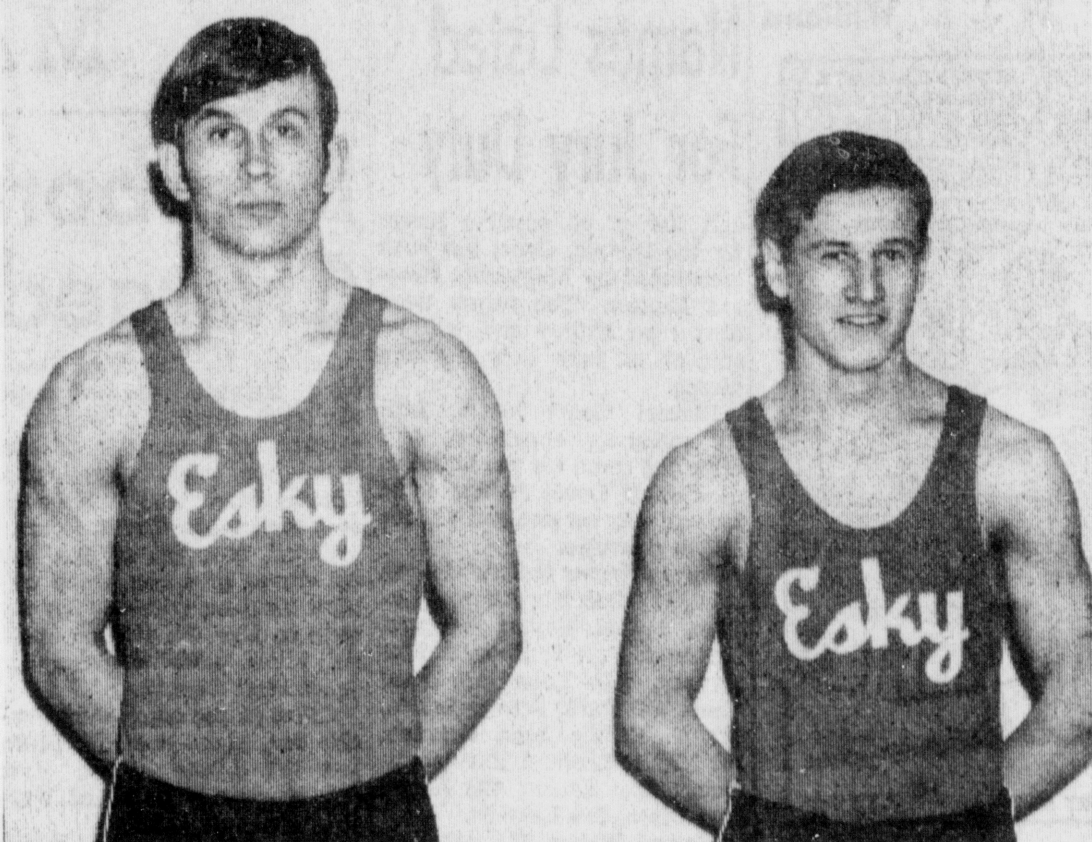

"I think it's a fitting honor," added utility infielder Dick Tracowski. "There were some fantastic teams in sports this year, like Ohio State in college football, the New York Jets in pro football, and the Boston Celtics in pro basketball. But this shows that baseball is still the No. 1 sport."

Surprisingly, the Jets received only 17 points in the voting. Their victory in the Super Bowl over the Baltimore Colts came in 1969 and therefore was not considered.

The U.S. Olympic basketball team, led by current University of Detroit star Spencer Haywood, was second in the voting with 96 first place votes and 413 points. The Colts were third with 264 points.

Rounding out the Top Ten were the U.S. Olympic swim team, 222 points; the UCLA basketball team, 209; Ohio State's football team, 187; the U.S. Olympic track team, 152; the Boston Celtics, the U.S. Olympic team as a unit, 33, and the Cardinals, 30.

"It was a fine sports year," said Tiger General Manager Jim Campbell. "It must have been hard to choose the top team because there were so many good ones," he said with a grin, indicating there was really no doubt in his mind who was No. 1.

TERRY BRAYAK and Dale Ford, Escanaba Eskymo wrestling co-captains, will lead the team in a Great Northern Conference match against the Holy Name Crusaders tonight at 7:30 in the Escanaba Area High School gymnasium. Brayak has compiled a 40-3 record in three years of varsity competition including a 7-1 mark this season and Ford is 46-7 in his three seasons and is also 7-1 this year. Both have been conference champs for two years in a row. (Chris Olson Photo)

Howe, Wings Nip Leafs To Keep String Intact

By The Associated Press

It was just a matter of the old man and an open goal for the Red Wings Sunday night, although a record 15,347 fans at Olympia Stadium weren't exactly nonpartisan or nonchalant about it.

The fans got what they had come for: Gordie Howe scored his 23rd and 24th season goals and helped Frank Mahovlich get his 31st as the Red Wings stopped the Toronto Maple Leafs 3-2 and moved into a three-way tie with the Leafs and New York.

Elsewhere Boston's streaking East Division leaders shaded Minnesota 4-3, St. Louis trimmed Oakland 3-1 to continue its West Division runaway, Chicago blasted Los Angeles 9-3, New York nipped Montreal 3-2, and Philadelphia downed Pittsburgh 5-3.

The Red Wings' victory added further evidence of the propriety of a controversial trade last year with Toronto. Mahovlich, who scored his 334th lifetime goal Sunday, and Pete Stemkowski, who had an assist and five of Detroit's 34 shots on goal, both came to Detroit in that trade.

Detroit takes its unbeaten streak of nine victories and three ties to New York on Wednesday to play the Rangers who have not lost in their last five starts.

Meanwhile, a second-time

rookie, Dick Cherry, who broke in with Boston for a few games 13 years ago and didn't make it, was having a night for himself in Philadelphia as the Flyers' Myron Stankiewicz in the penalty box. Cherry banged in the tie-breaking goal after a pass from rookie Dick Sarrazin. Then, with 14 seconds remaining and Pittsburgh goalie Les Binkley off the ice for a sixth attacker, Cherry hit the unguarded cage for an insurance maker.

Sarrazin set a club record with four assists in the game, which was marked by two brawls—between Philadelphia's Guy Gendron and Pittsburgh's Dunc McCallum in the first period and Forbes Kennedy of the Flyers and Ken Schinkel of the Penguins in the finale.

Phil Esposito, the league's top scorer, fired his 30th goal and set up two others for a 46-game total of 73 points as the Bruins extended their unbeaten streak to 14 and their division edge over runner-up Montreal to seven points.

Goals by Gary Sabourin, Frank St. Marseille and Jim Roberts ran St. Louis' unbeaten string against West Division foes to 18 games as the Blues opened a 17-point lead over second-place Oakland. It was the Blues' fifth straight victory over the Seals this season.

Ken Wharram's hat trick led Chicago's assault against Los Angeles goalie Wayne Rutledge and Gerry Desjardins as the Black Hawks snapped a five-game winless skid. Bobby Hull tallied goal No. 31 for the Hawks.

Jean Ratelle and Vic Hadfield scored third period goals while Montreal's Jean Beliveau was serving a five-minute major penalty for spearing, giving the Rangers a come-from-behind triumph. Yvan Cournoyer and Beliveau scored first period goals for the Canadiens before Hadfield closed the gap in the final minute of the second session.

Saturday the Rangers blanked Chicago 3-0, the Maple Leafs shut out Pittsburgh 2-0, Boston whitewashed St. Louis 4-0, Detroit trimmed Oakland 5-3, Montreal beat Philadelphia 6-3 and Minnesota nipped Los Angeles 3-2.

Pros Draft Tuesday; O.J. Seeks Big Pay

NEW YORK (AP) — The pickings will be easy for the Buffalo Bills at the outset of Tuesday's pro football draft. After that, O.J. Simpson's apparent employers-to-be could run into double trouble:

—Getting O.J.'s signature on a Buffalo contract.

—And finding a top flight quarterback to complement the brilliant ball carrier from Southern California.

With the American and National football leagues' third combined draft session less than 24 hours away, it's a foregone conclusion that the Bills will make Simpson the No. 1 selection.

Then they'll have to meet the Heisman Trophy winner's price—more than \$600,000, according to his business manager. And even with O.J. in the backfield they still won't go places in the AFL without a skilled quarterback, according to Joe Namath.

Chuck Barnes, president of Sports Headliners, Inc., said last weekend he and Simpson have a figure in mind in excess of the \$600,000 bonus-salary package given Donny Anderson by the Green Bay Packers in 1964.

"We're not talking about anything as long term as 10 years,"

O. J. Simpson

Barnes said. "I don't think O.J. wants to play football that long. He is interested in going into social work after football."

"If the Bills were unwilling to meet our price, we would be

ling to negotiate Our No. 1 responsibility will be to work out the best arrangement we can for O.J."

"We know how much we're thinking about, but we don't want to end up doing our negotiating in the papers."

Namath, the New York Jets' \$400,000 quarterback, paused between planes on a trip to the Far East and said he expects the only trouble Simpson will have with the Bills will be "figuring out how to spend his money."

"With Simpson and a quarterback, the Bills could make trouble," the outspoken Jet ace added. "John Rauch is a fine coach. But he has to come up with a quarterback."

Among the top ball carrier prospects are Purdue's Leroy Keyes, Florida's Larry Smith, West Texas State's Mercury Morris, Houston's Paul Gipson, Michigan's Ron Johnson and Oregon State's Bill Eynart—although Keyes may be tried as a flanker and Eynart as a line-backer.

The pass catchers likely to go in early rounds include Florida State's Ron Sellers, Penn State's Ted Kwalick, Southern Methodist's Jerry Levias, Notre Dame's Jim Seymour, Oklahoma's Eddie Hinton and Stanford's Gene Washington.

The draft will run from 10 a.m., through 9 p.m., EST, Tuesday, and will be completed Wednesday.

Perfect Game Rolled Friday

Ken Smith, bowling in the Friday Night Mixed Couples League at the Bowl-A-Rama Lanes, rolled the first 300 game of the year in the Escanaba area.

Smith, who carries a 177 average in league competition, also had games of 170 and 224 for a 694 series. He has been bowling for five years and his previous high game was a 245 and his highest series was a 623.

Seagren Shatters Vault Record On Anniversary

By The Associated Press

Bob Seagren celebrated the anniversary of his world pole vault mark Saturday by shattering it—while a pair of awesome Aussies did some record-breaking of their own as the indoor track season bloomed on six fronts last weekend.

Seagren, the U.S. Olympic champion, soared to his indoor mark of 17-5½ in the Albuquerque Invitational and Australian Ralph Doubell, another Olympic Gold Medal winner, broke the 880-yard standard in the same meet. The other Aussie, Ron Clarke, smashed the three-mile run record at the Athens Invitational in Oakland Friday night.

And at Houston's Astrodome, six world's best marks were eclipsed at the Federation National Championships.

Not Recognized

The Astrodome records, run on a five laps to the mile track, however, are not recognized as records by the Amateur Athletic Union. The AAU requires that a track be at least eight laps around.

The Federation marks were set by Lenox Miller, Southern Cal., 9.4 in the 100-yard dash; Olympic Gold medalist Willie Davenport in the 120-hurdles, 13.5; Hardee McAlhany, the 600 in 1:08.1; Texas University in the mile-relay at 3:08.4; and Kansas State in the two-mile relay, 7:23.7, and medley relay, 3:17.9.

Seagren of Southern California, broke his own mark of 17-4½, which he set at the Wanamaker-Millrose Games in

Lakers Upend Royals; Chamberlain Hits 60

By The Associated Press

Wilt Chamberlain scored 23 points, about four above his season's per-game average.

Now, opponents of the Los Angeles Lakers have overcome 23-point performances by Chamberlain, but not usually when they come in one quarter.

Chamberlain's 23 came in the fourth quarter Sunday and they gave him a game-total of 60 as the Lakers beat the Cincinnati Royals 126-113 to increase their first-place lead by 1½ games over the Atlanta Hawks in the National Basketball Association's Western Division.

The Hawks lost 119-115 to the Philadelphia 76ers, who moved to within a half-game of Eastern Division-leading Baltimore, which was drubbed 124-86 by Boston.

San Diego topped Chicago 111-95 and San Francisco trounced Phoenix 117-93 in other NBA action Sunday.

In the American Basketball Association Sunday, Miami downed Denver 108-97, Kentucky took Minnesota 101-90 and Oakland whipped Houston 110-105.

Chamberlain, the greatest scorer of all time who has concentrated more on passing the ball off in recent seasons, hit 22 of 36 field goal attempts and 16 of 24 foul shots in running up the highest total of the NBA season in the game at Cleveland.

Connie Dierking scored 32 points and Oscar Robertson 25

for Cincinnati, which trailed by only five points, 90-85 after three quarters. Then came Chamberlain's fourth-quarter onslaught.

Chet Walker's basket with 12 seconds left clinched Philadelphia's victory over Atlanta. Hal Greer led Philadelphia scoring with 31 points and Walker added 29. Zelmo Beaty paced the Hawks with 27.

Baltimore lost high-scoring Earl "The Pearl" Monroe with a knee injury in the first quarter and then lost the game by scoring only 1 point in the second period and 14 in the fourth. Sam Jones scored 28 points and Don Nelson 26 for Boston which outscored the Bullets 72-39 in the second half. Kevin Loughery topped Baltimore with 19.

San Diego rode to its fourth victory in five games and into a fourth-place tie with Chicago in the Western Division behind Elvin Hayes and Don Kojis, who scored 29 points each. Clem Haskins led Chicago with 20.

San Francisco outscored Phoenix 67-33 in the second and third periods for its victory. Nate Thurmond topped the winners with 25 points. Phoenix was led by Neil Johnson's pro career-high of 22.

Saturday, New York beat Milwaukee 113-96, Philadelphia downed Detroit 124-106, San Diego outlasted Phoenix 133-120 and Atlanta edged Baltimore 112-109.

New York exactly one year ago, Jan. 25, 1968.

"It was a matter of pride," Seagren said Saturday. He was upset at himself for performing poorly in the Astrodome the night before where he had finished third at 16 feet behind UCLA's Dick Rickabaugh.

Doubell, another Gold Medal winner at the Mexico City Olympics, lowered the 880 time to 1:47.9, breaking Dave Patrick's 1:48.9. Doubell was pushed by Tom Van Ruden, who finished in 1:50.4, but was on the Australian's heels most of the way.

Predicted Win

The amazing 31-year-old Clarke, who predicted before the Athens meet, "I'll win, I expect to get the record," did just that, winning in 13:12.6, cracking Tracy Smith's standard of 13:15.2, set last year. Smith finished fourth in 13:52.8.

The other competitions included the NAIA meet in Kansas City, Friday and Saturday, the Philadelphia Classic on Friday and the Seattle Indoor meet Saturday night.

At Seattle, Neal Steinhauer, U.S. Army, won the shot put with a 64-9½ foot toss, his second victory in successive nights. He also captured the shot in Oakland at 67-1 3/4.

Sam Blair, the mighty mite, formerly of Kent State, highlighted the Philadelphia Classic, winning the mile in 4:03.6. The 5-foot-6, 125-pounder trailed pace-setter Jurgen May by as much as 50 yards before catching the West German just before the tape.

Erv Hall, Villanova, took two events at Philadelphia, the 50-yard dash and hurdles.

Eastern Michigan overpowered its two Southern rivals, in romping to the team championship in the fourth annual NAIA meet. Eastern Michigan wound up with 96 1-3 points to 52 for Prairie View, Tex., and 47 1-3 for Arkansas AM&N.

Along with Steinhauer, double winners over the weekend in different meets were George Young, the 31-year-old Casa Grande, Ariz., schoolteacher, and Davenport.

Stretches String

Young, who stretched his indoor string to 13 straight, won the two-mile at Philadelphia in 8:44.6 and then flew to Albuquerque where he trimmed Clarke in 8:51.2.

Davenport also won in Albuquerque in the 60-hurdles. He was timed in 6.9. Other winners in New Mexico were Charlie Greene, with a six flat in the 60-yard dash and Ralph Boston with a leap of 25 feet in the long jump.

Olympic star Lee Evans of San Jose State took the 500 in 55.5 at Seattle but dropped out of the Oakland meet Friday night, claiming he didn't like the track.

Dick Fosbury, the Olympic high jump champion, and famed for his backward style of jumping called the "Fosbury Flop," did just that.

Fosbury failed to place in Houston with only a 6-4 jump and in Seattle lost to John Rambo's seven-foot effort going 6-8.

Easy Victory Surprises Eastern's Track Coach

KANSAS CITY (AP) — Nobody was shocked that Eastern Michigan won the fourth annual National Association of Intercollegiate Athletics indoor track and field championship, but the ease with which the Hurons took the crown surprised even Coach Bob Parks.

"I thought we had a pretty good chance to win it when we came down here," Parks said, "But I never dreamed it would be this margin."

The Hurons, with their strong foreign contingent in the middle and long distances contributing 50 of their points, piled up 96 1-3 points Saturday to easily wrest the team championship from Prairie View A&M of Texas, which finished a distant second with 52 points.

Arkansas AM&N was third with 47 1-3 and Emporia Kkan. State fourth with 32 1-3.

Rounding out the top 10 were Grambling (LA.) and Pittsburg

Top Ten Cagers Record Perfect Weekend Mark

By The Associated Press

The Top Ten teams in college basketball put up a perfect defense of the high ground last week, but several of them might find it more difficult protecting themselves this week.

Led by undisputed king-of-the-hill UCLA and its victories over Northwestern and Chicago Loyola, the Top Ten rolled up an 11-0 record last week, making any rating changes doubtful in the weekly Associated Press poll.

But seventh-ranked New Mexico State, carrying a 16-0 mark after routing Tennessee Tech at home, will be the first to say it won't be so easy to match perfection in the next six days.

The Aggies must put their high position and flawless record on the line twice against cross-state rival New Mexico 11-6, first at home Wednesday and then at New Mexico Saturday.

Illinois, No. 8, after easily beating back 15th-ranked Notre Dame, could have as much diffi-

culty standing tall with games at 12th-ranked Big Ten rival Ohio State, 11-2, Tuesday and at home against Wisconsin Saturday.

UCLA completed its third successful trip east with an 84-65 romp over Chicago Loyola for 30 consecutive victories before digging in deep against Pacific-8 Conference foes. Lew Alcindor, as usual, was the king of kings with 34 points, including 22 and 14 rebounds in the first half when the Bruins put away the game. Alcindor paced them past Northwestern the night before.

Davidson, despite 30 points and 20 rebounds by Mike Maloy, had to survive 16 straight points by The Citadel for an 80-72 triumph after a victory over Princeton earlier in the week.

Kentucky's balanced scoring overcame a 52-point performance by Pete Maravich, the nation's top scorer, and carried the Wildcats to a 108-96 victory over Louisiana State Saturday afternoon.

St. John's took St. Francis, N.Y., 71-55 and New Mexico State scored over Tennessee Tech 81-65.

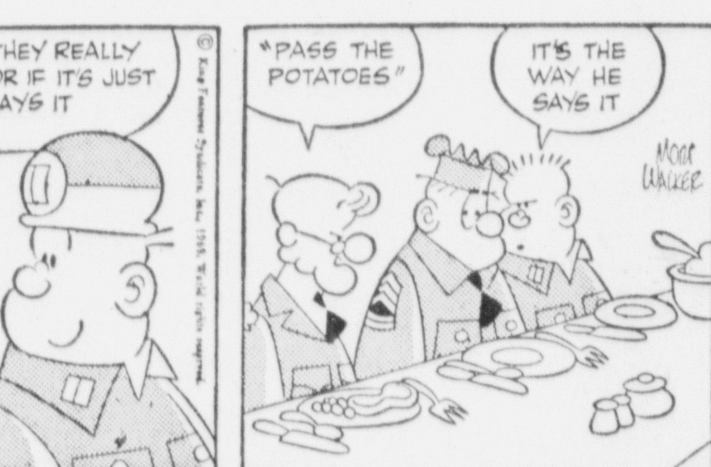

Illinois surprisingly had no trouble with Notre Dame in a 91-57 bombing, and LaSalle hammered Temple 101-85 after a 78-64 decision over Penn earlier.

Bill Zopf scored 25 points and Duquesne came from seven points behind in the second half to top St. Bonaventure and Bob Lanier's 35 points.

Dayton, No. 20, was the only team other than Notre Dame in the second 10 to lose during the week as the Flyers lost to Western Kentucky before beating Miami of Ohio 67-54 Saturday.

Villanova, No. 11, trounced Detroit and DePaul 81-57; Ohio State halted Georgia Tech and Cornell 96-78; Tulsa, No. 14, nipped Southern Illinois 88-82 in overtime; Marquette, No. 16, tripped Chicago Loyola; and Purdue, No. 18, blasted Minnesota 102-79.

Time Is Big Headache For Elections Director

By JIM NICHOLS
LANSING (AP) — In a way, you couldn't blame Bernie Apol if he knocked the block off the next guy who asked him the time of day.

Time has been a headache for Apol, the state elections director, since the Nov. 5 election. Perhaps it will finally go away this week.

Unofficial post-election returns showed the Daylight Savings Time proposal carried in Michigan by a narrow but sufficient margin.

For nearly a month, everybody thought that was what happened. Then the counties finished sending their figures to Apol's office and the state total indicated a fast-time defeat by 415 votes.

Apol then sent out a call for vote returns from each of the 5,500-plus precincts in the state and he and his staff began looking them over and adding them up.

CC Chips In
The result: four apparent errors boosted the margin of defeat to 1,501.

Then the State Chamber of Commerce and other business groups chipped in \$13,305—reportedly against the advice of their own expert—to recount the votes in 2,661 precincts all over the state and try to overturn the defeat.

Observers snickered at the thought of whittling away 1,501 votes. Then the recount returns started coming in and the margin began to melt. It dipped last week to around 250 votes and now stands at about 400.

The recount should be finished this week.

Whatever the outcome, though, the very size and number of discovered errors raise some questions. Apol says he is looking for the answers.

What happened?

Errors
"I haven't completely analyzed that one yet," Apol said. He added mistakes occurred in counting paper ballots, in writing down and adding voting machine totals, and so on.

An error in Wayne County alone trimmed the margin by 500 votes. "I have a theory (about the Wayne County report)," Apol said, "but I want to know before I say anything."

How significant were the errors?
From a strictly statistical viewpoint, not very. The recount brought a net change of about 1,100 votes, or less than 0.04 per cent of the total of 2.8 million cast. The percentage of precincts where mistakes were

Troops Fire Into Pakistan Mob

RAWALPINDI, Pakistan (AP) — Three persons were killed and 10 injured when troops fired on mobs violating a curfew in Dacca and its port city of Narayanganj in East Pakistan Sunday, officials said.

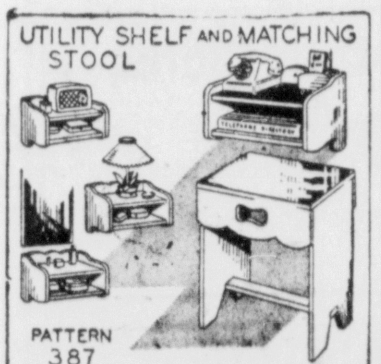

Antigovernment demonstrations also continued in Karachi, West Pakistan's biggest city, where police used tear gas and steel-tipped clubs to control a crowd of 3,000 who stoned municipal offices, set fire to five buildings and wrecked 12 buses.

It was the third day of new outbreaks against the government of President Mohammed Ayub Khan. The unrest began last fall when students demonstrated for government and education reforms. It was heightened when Ayub arrested several political leaders Nov. 13 on charges of inciting violence.

'Off Leash' Dogs Sent To Vietnam

FT. BENNING, Ga. (AP) — "Off leash" scout dogs are being sent from Ft. Benning to Vietnam. Off leash means the dogs can operate freely from 25 to 150 yards ahead of their Army handlers.

The dogs have been used successfully in finding enemy weapons caches and booby traps.

ENDLESS USES may be found for this well-designed shelf and stool. Perfect for telephone and book. Below a mirror it makes a small dressing table. Also good for lamp, radio, bedside or utility stand. Pattern 387, which gives actual-size guides and directions for both pieces, is 50c. It also is one of four patterns in the Small Shelf and Stand Packet for \$1.50.

Escanaba Daily Press
Pattern Dept., P. O. Box 50
New Windsor, N. Y. 12550

found is "relatively insignificant," Apol added.
Isn't it a little suspicious that nearly all the errors discovered lean in the same direction — so that the margin constantly shrinks? he was asked.

Not Surprising
Not really, Apol said. He adds that if the 500 - vote error in Wayne County is discounted, the remaining error is 600 votes. This, he suggests, is not surprising.

In the last big statewide recount—on the question of whether the new state constitution was approved by voters in 1962—a check of fewer precincts gave a net change of about 450 votes, he said.

Does the savings time foulup suggest that other election returns might also be riddled with errors?
Not to the same extent, Apol believes. He says the big Wayne County error apparently was the type which could occur only in voting on ballot propositions, not in political races.

Besides, he adds, ballot proposals are the last things counted on election night and election workers, weary by then, are more prone to mistakes.

Never Perfection
A number of recounts conducted by Apol's office last year—involving races for judgeships and county offices—overturned only one result. In that case, somebody wrote a nine that looked like a four, adding in 50 votes that weren't there.

What can be done to prevent recurrences of the DST mixup?
"I've kicked around some answers, but I don't really have a good one," Apol said.

Trimming the number of local boards of canvassers, giving county boards more power, perhaps centralizing the election process under his bureau—Apol suggests those as possibilities.

"We're going to have to look

at this and come up with some recommendations to keep this from happening again," he said, adding:
"You're never going to hit perfection, but we just have to find ways of getting closer to it."

THIS IS AN OUTSTANDING OPPORTUNITY
FRANCHISED DISTRIBUTOR WANTED IN ESCANABA

For an individual who wants to make money. If you are not satisfied with your present business or job and have a burning desire to be a success in life contact for an appointment. We are looking for a person who is loaded with energy and has that rare ability to find, hire and motivate sales people — men and women. We offer a franchise distributorship for a nationally advertised product with a proven sales record. It takes some money, but basically we are looking for talent. If you are right for the opportunity, we have an inventory financing program (Inventory investment — fully secured — amount depends on size of territory). You can't get hurt. Our sales in the millions annually.

Wire collect for complete information and appointment, and give us an opportunity to meet you and explain our proposition. A personal meeting is requested. NTM CORP., Adamsville, Pa.

GLADSTONE

Soo Earnings Double 1967's

Consolidated net income for Soo Line Railroad and subsidiaries in 1968 was \$6,420,527, or \$5.07 per share, the company reported today. Consolidated net income for 1967 was \$2,808,707, or \$2.22 per share.

The results for 1968 put the company back approximately to the record level of earnings achieved in 1966. In that year, the Soo reported consolidated net income of \$6,551,780, or \$5.18 per share.

The Soo's 1968 earnings were recorded on total revenues of \$94 million. Total revenues in 1967 were \$85 million.

A considerably brightened picture insofar as business volume was concerned, coupled with close control of expenses, produced the improved results for 1968, said Leonard H. Murray, president.

Officers Charge Woman Driver

Jane P. Dickinson, 60, of Box 206, Gladstone, was arrested by Gladstone Police on a charge of driving under the influence of intoxicants.

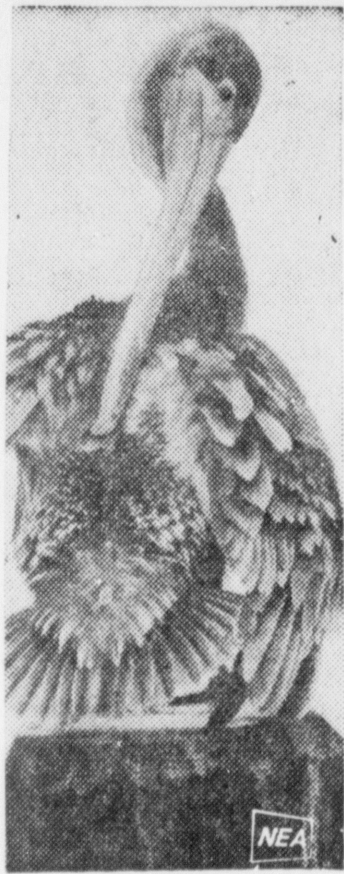

She was released to appear in District Court after posting \$50 bond.

Briefly Told

The Auxiliary of August Mattson Post, American Legion, will meet at 8 p.m. today in the Legion clubrooms.

The Happy Rock Extension Group will hold its monthly meeting at the home of Mrs. Ed Miller, 1600 Lake Shore Drive, Gladstone, at 8 p.m. Tuesday, Jan. 28.

Gladstone Police issued traffic tickets over the weekend to Jeffrey Malnar, Trenary, reckless driving; Edward L. Kossow Jr., Rte. 1, Rock, failing to stop for flashing red light, and Elaine M. Burak, Chemical Plant Location, failure to yield right of way.

BUILT-IN SCRATCHER makes life easy for this pelican who finds an itchy back no problem.

Rev. Mr. Ratz Helps Rev. Katz

STONINGTON, Maine (AP) — The Rev. Saul E. Katz is the pastor of the Methodist church in this small island community. The Rev. Eugene Ratz, who came here from South Dakota, is now pastor for the Nazarene church.

During the week, the Rev. Mr. Ratz gives lessons to the part-time organist at the Rev. Mr. Katz' church. And when the Rev. Mr. Katz, who lives in Bangor, comes down to the island on weekends, he brings his colleague's mail to him.

Bride Drowns

ALAMOSA, Colo. (AP) — An Alamosa girl, married Friday, drowned in her bath water Saturday and will be buried Wednesday.

Coroner Ken Buttler said Mrs. Shirley Teckenbrock Gerten, 18, apparently slipped and fell, hitting her head on the tub.

Arrest 10 Performers For Indecent Exposure

ANN ARBOR (AP) — Six actors and four actresses were charged with indecent exposure Sunday after performing in a play at the University of Michigan in which they stripped naked to enact the birth of the mythical god of wine and the death of a king.

They were scheduled to appear in district court in Ann Arbor today on the high misdemeanor charges, carrying a maximum penalty of one year in jail and a \$500 fine.

The members of the New York company called "The Performance Group" removed their clothes for 15 minutes a third of the way through the 3 1/2-hour play, "Dionysus in '69," and for 20 minutes at the end.

After the play, Ann Arbor police finger-printed and photographed the ten persons inside their dressing rooms and allowed them to remain free on their own recognizance.

Michigan Press Picks Winners

EAST LANSING (AP) — The Birmingham Eccentric, East Lansing Towne Courier and Tuscola County Advertiser headed the list of Michigan's top weekly newspapers honored for excellence at the Michigan Press Association meeting here Saturday.

The judges gave 75 awards in general excellence, advertising, editorials, feature writing, news reporting, personal columns and photography.

The Eccentric, Courier and Advertiser each won four awards. Six other weeklies received three awards each. They were The Farmington Enterprise & Observer, Ingham County News, Northville Record, Plymouth Mail Observer, Williamston Enterprise and Wyandotte News-Herald.

Frank Angelo, managing editor of The Detroit Free Press, was elected president of the MPA, succeeding Harry Whiteley of Rogers City.

Blair Bedient of The Albion Recorder was elected vice president. Other officers are Jim Brown of The Ingham County News, president-elect; Carl Black, Sanilac County Jeffersonian, treasurer, and board members Grattan Gray, Monroe News; William Sliger, Northville Record, and Felix A. Racette, Paw Paw Courier-Leader.

A similar arch was formed at the end of the play, with cast members dousing one another with red fluid symbolizing blood. This time, a man was forced into the arch, which then fell in a heap on the floor, in the enactment of the death of Tenebris, king of Thebes.

After it, the play's director, Richard Shekner, held a news conference on the stairway of the university student union, saying law and politics should not interfere with art. An actor appeared in the nude behind him briefly.

Shekner also told reporters that if the players are convicted of the charge, he would appeal the case all the way to the Supreme Court if necessary.

About 800 persons attended the performance, held as part of the University of Michigan's Creative Arts Festival.

Senate Report

State Sen. Gilbert Bursley, Ann Arbor Republican, who was present, said he would make a report to the Senate. He is a signer of a pending resolution calling for an investigation of student activism on state-supported university and college campuses. He said what he saw Sunday might affirm the need of such an investigation.

The group is on a national tour. In an appearance at a private theater in Detroit Saturday, they did not remove their clothes.

The names of the cast members were not released. Police said they would make them available when they appear in court today.

Cheboygan School Has Dress Code

CHEBOYGAN (AP) — Skirts will be longer and hair shorter for some Monday at Cheboygan High School.

A code of dress written by the Student Council and approved by the Board of Education goes into effect next week.

It forbids dress hemlines more than two inches above the knee-cap and prohibits boys wearing hair which falls over the ears or collars. Sideburns extending below earlobes also are outlawed.

Violators will be required to take immediate remedial action and if classes are missed they must be made up.
